A Questionable Decision

dighly questionable, surely, is the decision of Presi-elect John Kennedy to have some of his press erences carried "live" on television and radio. defences carried "live" on television and mole.

It is understandable that Kennedy would be sage ablies these media of communication, which would abstrain to convey to the popel of the U.S. the part, temperature and temperament of his new ministration. There may also be a second reason contrast between the quick thinking, cohernic contrast between the quick thinking, otherwise the contrast the quick thinking the quick thinking the contrast the quick thinking the quick think

But surely it is obvious that a press contenues is not the current forms for such utilization of the state of the surely state

A Mistake Which May Save Us

Only the brainchild of a gifted satirist or of a fool would say, with Voltaire's Candide, that all happens for limit down to the best in this best of all possible worlds. Yet those for the world say, with Voltaire's Candide, that all happens for limit down to the creater of the best in this best of all possible worlds. Yet those for the world is the world when the best in this best of all possible worlds. Yet those for the world is the world when the possible worlds. Yet those for the world is the possible worlds. Yet those for the world is the possible worlds. Yet those for the world war has the possible worlds. Yet those for the world war has the world with the possible worlds. Yet those for the world war has the world war has the world war has just provided second guessers with a treasure world war, has just provided second guessers with a treasure world war, has just provided second guessers with a treasure world war, has just provided second guessers with a treasure world yet the world war, has just provided second guessers with a treasure world war, has just provided second guessers with a treasure world war, has just provided second guessers with a treasure world war will be those who will assert with the world war. The world war was the world war will be those who will assert with the world war. The world war was the worl

so usteat Japan.

There will be those who will assert, with a blissful disdain for any examination of the facts, that the nuclear swort of Damocles would not today hange of the world if there had been no Hiroshima and no Winnipez Tribuse Nagasaki.

the world if there had been no Hisoshima and no Nagasaki.

Surely, though the burden of thousands on thousands and and on his surely, though the burden of thousands on thousands of human lives anuifed out by the twis most surely sure

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Well, it's all over for another year, and the most of us a country are counting our blessings and buckling down thatever the new year has to bring.

We in the southern part of Canada had our shoe good things the Christmas and New Year he ring but there are some that missed out. And we spi bring them a little holiday joy, even if the feature of the state of the

The RCAF will fly the skates to schools near them bases such as Winisk and Attawapiskat on E. Charter air services supplying other northern fly the skates as loads permit.

Members of the Gyro Club have offered to pack and ress the states. They are also supplying cartons. The ses will be overshauled and sharpened, thanks to the lie Leaf Gardens and Zd Filkin.

But surely there are some who will have no further use for the old blades and it is to these and their parents that this appeal is made.

The size or condition of the skates does not matter hatever they are, if you have no further use for them, a your first good furn of 1961 and take them to mily's Service Station, Front Street, and the amighien arus and his staff will do the rest.

Do it right away, eh!

#### Dishonest Athletes

Professional sportamen who accept money to erise various brands of liquor are "dishonest letes," in the opinion of Miss Sara Barber, 19-year-Brantford girl who was a member of the Canadian nen's Olympic swimming team.

Miss Batter is probably correct. We would likely in living up to my a special solution of the same of

the having any extensive knowledge on this subjects with any extensive knowledge of this subject where having any extensive knowledge on this subject where he having any extensive knowledge of this subject where he have he have been as the having the ha

#### A Squawk on Freedom

Recently a group of Waterloo University students! Many men who have levent-threw some live chickens into a school auditorium ed machines for manufacturing where a play was in progress. Needless to say there grosses have died poor. They was some confusion and excitement, especially as the fits of their devices from which libels waves extinguished as well yours late, other men because Recently a group of Waterloo University students

was some contunon and extendents, especially as the int of their sevices from which lights were critiquidhed as well.

Eleven students were charged with disturbing at This applies to two of the theeting, an offence under the Criminal Code. The inner moving picture as the charge was later reduced to a civil offence of leiting investigations of the charge was later reduced to a civil offence of leiting investigations of the charge was later reduced to a civil offence of leiting investigations. The line of the control of the con

gasered to be inherent pranisters at best.

The incident serves to point up one of the valuable around facets of our Canadian life. It is through such a law lives as this that people are assured they may meet for of the whatever purpose they desire and, providing their livest jurpose is not entimal, are guaranteed that none shall merite disturb them without being made responsible for such soon, section before the law.

Lamin.

disturb them without being made responsible for such some scaled neferor the law. Investment like a very good very and the law of the scale like a very good very like the law of the law o

pave provided had it been fully executed.

Freedom of assembly is a vital freedom whether it sits for social or entertainment purposes or whether it is the for social or entertainment purpose or whether it is the fir religious or political reasons. It is but one of many aspects of our life which should be safeguarded occurred at all times.

## Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor. of these days manager-coach Wren Blair of the Frontenacs professional hockey club may quit

Twice now the pempens little man with the pro-ing forelock has "quit" his team as coach. And twice cry has falled to get beyond the newspaper head-

The first time, he "walked out" on his club during the cood period, amounting he west through. The next mesh have been in the old familiar spot.

More recently after the Prontenses had falled to had carty-game leads, the Illit's blenche bomber allegetly tacked a 330 fins on his players and again amounted his intention of quiting.

But this time he toused a little dynamite into the announcement. "I'll phone Lynn Fatrick (general man-ager of the Boston Bruins, and Biair's boss) and if he can come through with a suitable replacement I'm packing if in."

Becamse a wire story from Boston yesterday stated that Mr. Patrick hadn't taken Biair's threat to quit very seriously. In fact he had never heard about it — from Blair.

Knowing Blair as we do, it is indeed a strange posi-tion for this maker of hockey history to find himself in, that of having his club look up and find four other club-looking down at it.

looking down as is.

It is indeed a stronge thing for we upstart observers
believe since Kingston Fronteness press spents weet all
it in pre-reason releases, airing to all and sundry what a
ob was in the making with all that help coming from the
rest Boston Bruina

In the heyday of his senior amateur days, Blair sever had less than a second-place tour. In fact he won more league titles and championships than any other busch

Blair is reported as suying that the combined job of neger and coach is too much for one man.

According to Der Maxie Jackson, Blair said that the "manager is the father of the club, while the coach is the mother."

It wann't that way the year the Whitby Dunlops with though to the Allan Cup (the first time). Bus Garnon was the Dunlop coach, if memory is correct, and in the middle fo the playdown stream, Biair decided to become "opopes and momma" and took ever the coach's job from his veteran ferward.

Jackson said there is a likelihood of Bun Cook being appointed temporary coach of the cinb while Mr. Blair takes an amble through the Bruins' farm clubs in a search for inlent.

# NEWSPAPER

The story behind the headlines and the copy in a newspaper is spelled S-E-R-V-I-C-E! This newspaper, and every other paper in the country is a "public service" — It is informative, educational, humanitarian and civic-minded. Dad turns first to the news and editorials; Mom likes fashion stories and recipes; the kids like the comics.

There's something for everybody in every phase of everyday life! Fundamentally, your newspaper serves you with information - whether in the news columns, or in the ads! Truly your paper is a "service centre" . . . the meeting place and the · marketplace of the community.

EXPAND TRANSPORT COMMAND —The BCAFs Air Transport Command is in the process of putling these five new types of a certain finds full-scale operation. In central is the twin-seaping CC-100 Commopolitan. The others (clockwise from top left): Canadair

CC-106 turboprop; Caribou, now servir.

# Howe-He Pulled His Weight

A stuffed file has yielded a one-sheet biography or noe Decatur Howe, dated June 1953, an election

It is crammed with facts and dates—and quit

It is crammed with facts and dates—and quite functions.

Nobody could hope to compress Mr. Howe into one part with the force of the positions are always and the times of the force of the positions he held and the times at which he held them.

Art. Howe, like most great men who are remembered from their schelerender rather than merely for the positions he held and the times at which he held them.

Art. Howe, like most great men who are remembered from their schelerenders within the state of the state of the positions with the state of the state o

maximal resources into a inten warm from the complex in now soundly founded might have taken immed longer and would almost certainty have taken immed longer and would almost certainty have taken immed longer and would almost certainty have taken immediately and the complex of the complex of

He rowed hard, did Clarence Decatur Howe, and loye pairs his own can see it for occasionally, as in the pipe line debate, he caught a them all plainty as the pipe line debate, he caught a threat which he set is the strike or as which has brought Canada's both, most of up to - it ware plant indigg the flood tide, into the celusary. With the impetual he has given us, we should be able to make girst line set of the property of the pipe line property of the pi

GREEN'S AUTO WRECKERS Belleville — WO 5-9441 members, that wolumbarily tomar confidence, when they provide "KU" VALUE FOR YOUR INVESTED DOLLAR requiring the elimination of mislanding impressions, fine prior

reducing the quality and variety of wholesome foods you put before your family. It's simple! Just shop at DOMINION every one of the 52 weeks in 1961! You won't save on every single Hem. Nor will you save a whopping amount on any one liess. But you'll save a penny or two here... a penny or two there. And believe me, those pennies will add up to a worthwhile saving every week. And as the weeks go by your savings will mount to a sizeable sum ... enough to buy a new dress or new sloss ... things for the kiddles or for the house ... many things you need but can't afford when you spend too much on food. Switch to DOMINION for the me el January and you'll shop and save at DOMINION all 52 weeks of 1961!

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor oo many years ago when Canadian hockey team i the body-check with assorted variations to Eus

Reading the life story of "Jelly Jawn Adams," the grable massive of the Detreit Red Wings, which is aling currently in Macleans, it makes me wonder what reaction of the European Journalists would have been teams like those which formed Canada's top hockey is in those days, made a tour of the continue.

ack in 1920, those Russkies, Svenskas, Norge, Ital s and Swiss would have thought if was a dress reh orld War Two had a Canadian team of that era s ag from the hip.

It mays the Canadiens "put Ken Randall out of the game for keeps, cut Juck Adapar head to ribbons, bit-riewed Rasty Grawfeel from head to fore; sent Batt-Manmenty hebbling off with one leg limp from a sween-ing slash, broad the techt of gathe Harry Blones, kneed-ed cut Blarry Meeking and Alf Skinner and bumped query older oppuning player on the for."

"It may sound like a whopping contradiction," Adams, "but with one or two notable exceptions, the olders weren't victous men. Rough-hown and unbridled, but rarely ruthless."

He says they played hockey as a part-tin it brought in a few extra dollars. He recalls brake into pro hockey in 1918, his season No. and the fotal payrell of the Torento. 256—less than the salary of one NHL playe

In those days, Adams recalls, finks were small and finding the beginning were on the to become soon between the control of the party were on the to become soon to be the control of the c

Where did you get that?" I asked him.

# The Abating The Abating The Abating The Abating The Third Control of the State Is Your WILL Up to Date?

Many people review their Will at the beginning of each year. Your executor may have mored away or become ill or become unable to give sufficient time and attention to administer your estate. In view of the considerable changes in dollar values your Estate has prepably changed

You may have given too many legaclessor too large in amount, un der your Will and have deprived your wife and children of sufficient to provide for their care and keep. You may have to adjust some of the shares going to beneficiaries. Births, marriages and deaths in your family may have made your estate plans obsolete. Increased succession duties and income taxes may affect the estate plans made by you for your family.

Your Will is one of the most important documents you will ever be called upon to sign. If you have a Will, we suggest that you review it now — and if not make your Will now and appoint Victoria and Grey Trust Company as Executor.

It costs no more to have group judgment and financial responsibil-

#### Transportation—A Public Service

"Transportation must be considered a ce and thus controlled and regulated as nec re the aims of governments."

This is not a sentence from a m wing organization, but a quotation from a bri of the most conservatively-minded regions of thi

Some may be startled, but in the final analysis is re anything really new in this attitude? Is it not recognition of a situation which already, in inge measure, crists loday and which was unavoidable by the very nature of geographical facts? It is seen a single form of transportation widely used in small which does not depend, in great measure, public mark? Not the ultraction of the property of the public control of the asure, exists today and which was unavoid-

erices which they help to finance.

The difficulty in this frank recognition of the truntrahip of public and private enterprise in the fid of transportation is that it may tend to produce to the produce of the produc

e maintained out of the public purse.

There would be less danger of this if it were larger simple to determine what is commonficially insound, but there are obviously many cases in which iteransportation subsidy, by enabling a depressed are well-as provide, work for its inhabitants, is the best and interpret solution available. With no easy rardied in a pplicable in all cases, mistakes are certain to be disable.

ande.

The Quebec brief was realistle reparting this. "We have to learn to accept mixed blessings and try to inalise our transportation accounts in such a way at to provide the maximum service at the lowest powhile cost reconcilable with the requirements of the wordth of Canada as a whole as well as of its major gions and individual communities."

Excellent advice—but, we fear, much more easily n than followed.

The Remedy Is Simple
Atterney-General Kelso Roberts will ask crown
thorneys to press for stiffer penallels for drivers conwicked of failure to remain at the scene of an aecident.
The number of hit-run aecidents is increasing. The
seplanation, according to Mr. Roberts, is that a driver
convicted or ferminal negligence or drunk driving is
assessed twelve demerit points, which results in the lose
sessed twelve demerit points, which results in the lose
and convicted only of failure to remain at the scene,
strength of the control of the control of the control
and convicted only of failure to remain at the scene,
strength of the control of the control
and convicted only of failure to remain at the scene,
strength of the control of the control
and convicted only of failure to remain at the scene,
strength of the control of the control

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

the ghosts are whispering in the Eastern Canadi

There are rumors going the rounds that all is I with the not-so-healthy toddler, the Eastern lonel Hockey League.

Is the brainchild of the Pollocks and other forme Quebeo League officials going the way of Eastern On larie and Ontarie senior "A" hockey?

Bob (Sudbury Star) Scott columnist writes: There is talk circulating that the league may be seced to fold. Some hard thinking will have to be one at the January 16 meeting shates for Kitchener."

"It is not a remote possibility," remarks another e to the scene. "The handwriting is on the wall it be erased?"

Len (Kitchener Record) Taylor columns: "There as growing realization that the EFL is on the way of scients rised out of business. A year age the learner fairled out with an avowed player maximum of \$3,500 masses. One team official now says that this is aretily the minimum today."

ere has been a lot of whistling going past the ceme-in some centres of the league, but it is no secret tendance is well down in total and in most of them.

Sudbury Welves, averaging 3,100 a game, made abest \$35,600 profit has season. So far this year they are about 1,400 behind in that 1193-60 average. Sof-bury attendance in 18 games this winter has totalised \$4,100, as average of 2,377. Worley will have creat \$4,100, as average of 2,377. Worley will have creat \$4,100, as average of 2,377. Worley will have creat \$4,100, as average of 2,377. Worley will have creat \$4,100 and \$4,

Sault Sie. Marie Thunderbirds are not realizing reak-even average by a long abot. Kingsion From-enace, who sice suphesantially last year, are well behind helr, break-even paint and need a playoff spot to get unt at the red. Even if they de, attendance will have o take a marked upsurge from schedule averages.

The Klichener clab is probably worse off than the Lieus were at this time hast season. The figures for attendance in Klichener have been turnsitio count and not paid entries. The total admissions for 17 manuars were required 75.000 are about 1.760 a game. The total probable of the country o

Taylor says: 'The chances are that the Beavers re averaged fewer than 1,500 a game and the aver-price per tickets, judging from where people ast 'I be more than one dellar. Monireal Royals are dry likely is be doing any better. Where this reat issues with budgets running from \$120,400 up-rial nears the second of the people of the people of the first than the people of the people of the first than 100 miles. The people of the people of the people of the people of the first than 100 miles of fir

"Obviously," Taylor says, "there has got to be vision of ideas if the league is to continue. There is never been a day when a local hockey learn aftered to operate with the budget on which the visit and the league." And the same applies to st centive in the league."

The league pool will be an important item on the Jan-r meeting agends. The National Hockey League pays most of the money and "reps" will be there to look

Last year the pool dipped to \$20,000 when the call three Edward Lions were in the league. They acmided for most of the drop, some \$25,500, whill trates needed \$7,500 and the See \$5,000 to break

# What do you know about that?

"What do you know about that?" How often you hear a newspaper reader ask this question! It's largely a rhetorical question, of course, because the newspaper reader already knows ALL about whatever

The primary purpose of the newspaper is to supply the ANSWERS to the questions that most interest and most concern people. Questions as close to home as next year's local tax rate. Questions as far afield as what is happening on the other side of the world . . . which may none the less directly bear on your future.

Your answer to the question, "What do you know about that?" is likely to depend on how closely you read your newspaper ... for accurate and complete information on everything that it is important for

# We Help Balance Your Budget ...

Is keeping your household budget in balance one of your principal problems? You can find plenty of practical help in solving it in the pages of this newspaper. News of seasonal trends in food prices will help you to plan your menus more thriftily . . . even stock up for weeks ahead at savings (if you have a freezer). Sew-it-yourself suggestions can help you reduce family wardrobe costs. Home improvement hints can help you fix up your home for less money than you may have expected. And be sure to keep a keen eye on the advertising columns, too, because that's where you'll find the first news of the best buys in practically everything your family needs or wants. The more you know about price trends and values, the better you can buy . . . and the best place to get the most information of this kind fastest is in the pages of this news-

#### Make the Punishment Fit the Crime"

So wrote Giber; and Sullivan of much hall use. Ferhaps the current situation in Montreal sould be preserved by some enterprising libretists, buth has been made of the importation of top-otch criminologist from London's Scotland Yard oil the French Surete to assist the Montreal collec department in adopting new measures to at down on crime in that area.

Whilst the police attempt to improve their methods and their efficiency in preventing crime or bringing criminals to justice there appears to be a most unusual situation in the courts. This a most unusual statusion in the courts. In structure, a straid of such as to make even the honest citizen cry, much more the policeman whose hard work has resulted in the tracking down of the criminal.

A good example is the recent case involving three men who had kidnapped a Montreal businessman, taken him to a descreted field and there, in the dark of night, pressed a revolver against his head and forced him 6 sign certain documents relinquishing his ownership of shares in a real

The men were apprehended, brought to trial and convicted. The judge described the incident and convicted the pudge described the incident six months, all months and two years. In case one might wonder at the seeming injustice of this is should be explained that the two-year sentence was imposed because the recipient had a long previous record.

In the United States the maximum penalty In the United States the maximum person, or kidnapping is death. It would seem that the Montreal police might be most assisted in their work if realistic penalities were handed down by the courts. Drunken drivers sometimes get the same penalty as was given to one of the kidnappers and we do not doubt for one instant which is the great-

er offence.
Unfortunately, there appears to be too great a
leniency exhibited towards criminals and this may
well be one of the chief problems experienced

today regarding crime waves.

There is much to be said for rehabilitation of There is much to be said for rehabilitation of criminals and providing assistance to first-time offenders to encourage them along the straight and narrow. This we would not deny. Diplection, however, can be made to playing patty-cake with encodiums in the matter of handing down lentent sentences for crimes of a violent nature. Crime, it would appear, has become in some instances at least an exciting pastime which can be most enjoyable if one accepts the risk that his livety to roam will be somewhat curtailed for a few months or vessel.

months or years.

Back in the old days if one played with fire one got one's fingers burnt. got one's fingers burnt. Nowadays there all sorts of sedatives to take away the pain ch such an experience normally produced. which such an experience normally produced. The same thing appears to have happened in the field of law enforcement and correction of the criminal. It will, we feel, continue to be this way at the expense to the taxpayer and the potential hazard to the citizen if the tendency

tentia insate to ward leinency continues.

Law enforcement agencies should make sure that the punishment does fit the crime or we will have parts of our country become a happy hubting ground, just as Montreal appears to have become, for American gangaters who feel the odds Montreal these of these only eet six months for become, for American gangaters with acc. and are much better if they only get six months for a kidnapping rap.

#### An Illegal Proposal

Vancouver's city council has decided to ask for charter amendments which will permit mail service of traffic summonses and dispense with proof of identity and official recording of traffic proof of identity and official recording of status-court proceedings. Fortunately the B.C. attorney-general frowns on this request. Attorney-General Robert Bonner has stated that citizens' rights are more important than the convenience of procemore important than the convenience of prose-cution authorities in traffic offences. We heartily

concur. Truly amazing is the statement of Vancouver's city prosecutor, Stewart McMorran, who proposed the changes to save court time and opsts. Mr. McMorran conceded that the proposed changes to cause could affect forli liberties, but contends that the breaches are not serious enough to affect the overwell good of the community," according to The overwell good of the community," according to The

Vancouver.Sun.

If Mr. McMorran were truly concerned about
cutking down on the time and costs of the court he
night, in his capacity as city prosecutor, institute
a system of on-the-spot summonses such as the
Ontario Provincial Police now use and immediately
throw out such cause where there is no positive
proof of McGullly. The latter is but a matter of legal common sense.

Glamor giri Zea Zea Gabori reported to have said in an interview that she would trade it all just to be the "giri next door." Next door to whome "The Maharajah of Mysore? (Calgary Herald.)

# THE FACTS BENEATH THE FASHION

30-D SLANT SIX ENGINE Here is the newest six-cylinder sign end to day. It is a support of the condition of the degrees. Design allows end und flow of fuel to all cylinders. In cylinder starving or flooding. Result: snappy performance with real economy. It is the industry's finest "Skr."

UNIBODY CONSTRUCTION UNIBODY CONSTRUCTION
A single welded unit that virtually eliminates rattles and
aqueaks. A fortress of sale that
cradies you in safety and silence
for as long as you own the car.
rust-resistant body. A seron
body. A beautiful body. Unibody
-quality on gineered by
Chrysler Corporation.

TORSION-AIRE SUSPENSION.
Torsion bars in front. Widelyspaced leaf spring in the rear.
Exclusive Oriflow shock
absorbers all around. That's
Torsion-Aire. The one suspension that smooths out bumps.
Helps prevent dips and sways,
Greater stability on curves.
Yours in every new Plymouth.

WARRANTED 12,000 MILES OR ONE FULL YEAR (whichever first occurs)

# Sport Slices ..

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Bry's going to be turkey and the trimmings, sons, bear gravy, fish chewfer, mevies, presen-ns and free draws at the annual confub of the ritle Fish and Game Club come January 17th to Club Canara.

It looks like the top get-together of the popul did-life and conservation association but only the John second-first will be served. Officials, tell me th ticket male will hast on Friday, January 13th, that the property of the property of

The feasting starts at 6.30 and some lucky angler hunter will portage home a handsome Peterborou sance, all depending how he stands with Lady Luchthat is, if the allotted 130 tichets are sold. If not the business will be held the following meeting.

reces will not note the following meeting.

Then there will be the presentation of trophic
the Fish and Game Competition. Remember postyour bosor. Ne pictures or affidavits needed
ter that fish, would be been and you might wit
handsome prize. The sardine "Lefty" Whitness
trend has been inseed out. Broce Bhop's "one
"was identified as an ality cat and it has been
the a non.

#### NG TOURNAMENT

e will be no women's district or zone cham this year. Lady keglers will enter elimin maments direct. These, it is expected, will be

#### ABOUT THOSE SKATES

The response to the appeal for skates for needy indian kiddies in Canada's northiand has been good but it is felt there are usere unneed blades lying in attics, garages or wherever people park such articles.

The Indian schools and settlements would greatly reciate these gifts for their youngsters, so in case you re-intended sending a pair and have procrastinated, we shout digging them out now.

The Cities Service Oil Company here, vis Angus Diffy and his staff at their Frent Street service sta-ten will gladly call for them if you have a pair or pairs and would like is densiti them is a worthy cause. Just step to the phone, call Mr. Duffy at WO 2-5755 and one of the staff will call for the

Be a belated Santa Claus and bring a little jey to a needy Indian kiddle. Do it now, ch?

#### Canada's Population Grows

Canada's Populletin or Grows'
Canada's population has now passed the sighteen-million mark. The Dominion Burgau of Statistics estimates that on Deember 1, 1980, there were 18,020,000 persons residing in this country, an increase of 370,000 or 2.1 per ent over the number of hinhalitants on the corresponding date s year, earlier.

Canada is one of the comparatively few countries in which an increase in population is not, at best, a mixed blessing and, at worst a cutualistic million of the world, Canada has been participating in the current "population explosion," although in our case the increased rate of the natural increase in population is more rate of the natural increase in population is more rate of the natural increase in population is more rate of the natural increase in population is more

rate of the natural increase in population is more the result of a higher birth rate than of the success of modern science in reducing the death rate. Our birth rate has climbed from the low point of the depression-ridden thirties until now it is of the depression-ridden thirties until now it is amongst the highest in the world. Unlike many other lands with high birth rates, Canada has lots of room to put these additional citizens and, indeed, since we are 'reluctant to accept immi-grants from most of the over-crowided countries, this steady increase in the number of native-born greates are the number of native-born come proscience age as trend which may afford us some proscience age as trend which may afford us come proscience age as trend which may afford doors wider. This natural increase, tope there is the flow of immigrants from Europe, makes us look less like a dog in the manger with respect to our living space. living space.

living space.

Most noteworthy feature of the figures released by the Dominion Bureau of Statistics is not
the 131,000 gain in Ontario's population but the
modest additional thousand residents reported in
the Yukon which now has 14,000 people. On a
percentage basis, the Yukon outsiripped all other
parts of Canada. The over call gain in population was 2.1 per cent, that of Ontario nature 2.2
per cent, but not muits at the tend son was 2.1 per cent, that of Unitario nearer 2.2
per cent but not quite at that level. By comparison, Yukon's percentage increase was almost 7.7 per cent. It is easy, of course, to read too much significance into figures for a single year, but when we note that the Northwest Territories, with a population of 21,000 in 1859, had also added a through of 21,000 in 1859, had also added a through of 21,000 in 1859. added a housand residents by December 1, 1980, and asso added a housand residents by December 1, 1980, we we may be pardoned for hoping that we are wit-nessing the beginning of a trend which will per-sist—that more and more Canadians, native-born or immigrants, are going to prove willing to make their homes in the Far North. With its rigorous climate but wealth of natural resources, the North their nomes in the Far North. With its rigorous climate but wealth of natural resources, the North offers a great challenge, particularly in view of the progress made by the Soviet Union in populating territory with similar liabilities and assets.

#### Faulty Appliances Sold

"Many unsuspecting Ontario residents are tempting fate every day by buying or using un-approved electrical appliances."

That assertion is made in an article in the current issue of "Ontario Hydro News," published by the Hydro-Electric Fower Commission of On-

The author, Don Carmichael, cites an instance of a young Western Ontario housewife being elec-trocuted when, while using a vacuum cleaner, she reached out with her free hand and turned on a reached out with her Iree nanu and particular lamp. Investigation revealed one of the appliances had never received the Canadian Standards Asso-ciation seal of approval, while the other had been

aga never received the Canadian Standards Asso-ciation scal of approval, while the other had been ciation scal of approval, while the other had been ciation scale of the control of the control of the Something ought to be done shout this? The Ontario Eyero thinks so, too. Unfortunately, this is easier said than done. By regulations under the Interpolated the Control of the Control of the Control probabilities of notatio. The Ontario Eyero employs probabilities to notation. The Ontario Eyero employs flouting of the law, intentional or not, govern-flouting of the law, intentional or not, govern-time article makes it plain that the main prob-lem arises in connection with imported products. J. M. Hämbley, general manager of Eydro, in a recent address to the Canadian section of the In-ternational Association of Electrical Inspectors, early association of Electrical Inspectors, early avoided by Illegal means by their forcing-quently avoided by Illegal means by their forcing-competitors. Mr. Hambley said that ontario of entry latic Canadia of electrical merchandies not hydro would wholehearched upport the blocking of entry latic Canadia of electrical merchandies not approved by an appropriate testing body. However, there is a hitch to such an approach to the problem. "Our Federal Government, however, has indicated that it is very reluctant to take action under all the nas indicated that it is very reluctant to take ac-join unless all the provinces delegate to it the authority to do so, as this is an area within the jurisdiction of the provinces under the British North America Act."

The provinces ought to hasten to give their consent to Federal action—and the Federal Government ought to press vigorously for such consent. Control of defective imports would be relatively simple, once the Federal Government's oustoms branch had authority to act.

#### U.S. Press Understanding

incontractions of selected systems of the contractions of the contractions of the contractions of the contraction of the contra

the United States is disposed to be less than bottle towards Mir. Fleming's bodget. It is reconduct that the Canadian Flanaree Minister is trying to cope with a much the Canadian Flanaree Minister is trying to cope with a much the United States, only Canada's position, proportionately, is far worse. More than this, there has been some realization that a slower outflow of American investment capital tota Canada may help strengthen the American South

the America dollar.

Perhaps the most synopulacide understanding of Canada's positional control of the Canada's position of the Canada's position: These this mean that a control of the Canadas government. In even the Canadas government is even to canadas government in even canadas government in event in even canadas government in event in even canadas government in event in event in event in event in event in even canadas government in event in even in event in even in event in event in event in event in event in event in event

what he wishes. But it as "In any event," no one condemn as turessome and of induscondemn as tinreasonable the end of inducements to foreign capital, so long as no actual barriers are crected."

barriers are erected."

It even sees that the Ca dian tax changes might helpful to the United Sta at this time: (The Uni States might welcome the nadian move as it will tard the flow of Americollars northwardand thus

The New York Times warns Americans that "quite apart from Communist propaganda

The New York almost here piles that the foreign policy of the United States cannot afford to give rise to such fears in foreign lands. The ball ance sheet of American corporations must be brought into like with both the financial and political balance sheet of the nation.

has joined a some since since the nation. Canada who have ance that Mr. Fleming's bary bodget sould be a granded in the United States as an et of nationalistic provocation may have understimated the awareness of the Canadian problem, in the United States — an awareness increased by the fact that the United States is factor a not United States in factor a not

#### TODAY'S TALK

BY GEORGE MATTHEW ADAMS INTEGRITY

life I have watched men and women and measured their habits, and I have decided that integrity has always led the list. he list. If a man has integrity, he has all, and can be trusted to perform both honestly and with a high regard for others. With integrity there is no seed to show any "hack round" papers, such men dwomen recommend them-

Theorems recommend themselves.

Integrity is capital itself. A nation with integrity can always command a royal respect. It is the over-all.

Integrity is better than the Dun and Bradstreeters. A person with integrity can lose nothing in the stock market market. His integrity can market. His integrity int a gamble. It is his greatest asset. et. We can know when we are

dealing with men of integrity. There is no boasting, no flow-integrity need no introduction. They are known in advance. Theri reputation travels with them and stamps their entire persentities.

and stamps their entire personality on whomever they meet, the more I think upon the condition of a great character, and the condition of a great character, a settle upon integrity as the outstanding virtue. There is no greater quality with which to begin life. It is something that cannot be bought. One that cannot be bought to greater quality with which comes character.

One of America's greatest financiers — the elder J. P.

ica's greatest e elder J. P. One of America's greatest financiers — the elder J. P. Morgan — always contended that a man's integrity was the best collateral any same could have. Never wiff it change!

Keep your integrity. It will never betray you.

#### STRENGTH FOR THE DAY

DR. EARL L. DOUGLASS THE MARK OF MURACLE

Some would say that a mir-cle is an act which results

Some would say that a mit-che is an ext which results are all which results have — either natural laws within we have a present fami-tically a support of the which we are a present fami-tically a support of the would say that a mirsale is the result of a break-through lar constitution. Still others would say that a mirsale is the result of a break-through of certain spiritual forces to be a support of the second human life. The second is human life and the second is human life. The second is human life and the second is human life. The second is human life and the second is human life and the second is human life. The second is human life and the second is human life and the second is human life. The second is human life and the second i

RARE, MEDIUM, WELL-DONE

friend of mine in North Carolina thinks othe He claims fish are generaly dumb, stupid a tout of the time fit to be fried. He has a sto-pre it.

e yarn may have stemmed from what the governo th Carolina said to the governor of South Carolina t the governor of North Carolina was there. I ed in his state at a place where he was guesting.

The owner of the place, the Catalooche Rench, was Tom Alexander, Now Tom is a trout lover and a fine pond well-stocked with brown trout.

To go back a little, Alexander had nurtured his rost carefully. He gaye them everything but mid-fives and housemands. He raised them, after the defiling period, on nice chopped liver and other se-ort front foods.

They ignored the hooked "deaths" as they dropped ong the floating chunks of "isasty-crust." After all, self-respecting brown trout who loves his cake wants thing to do with an unpleasant insect.

The pair tried about everything the fly family to offer but met with no success. Those damned, deraised brown hables wanted no part of any amon fish food. After all, the bread was good and re were no strings attached.

"Okay," said Alexander, suddenly imbued with an ex, "we'll give 'em more bread." So they smashed other few loaves and tossed them into the water.

Alexander retrieved an old foam-rubber horse-blanket from his stable. The two frustrated ones broke off bits of the rubber and tied them to hooks with nylon thread.

Fish smart? Don't be silly.

In ten minutes Alexander and his pal had twenty utiles lying on the pond-bank. They weighed ween one and two pounds.

his service applies only with the city itsuits.

YOUR NEWSPAPER

The story behind the headlines and the copy in a newspaper is spelled S-E-R-V-I-C-E! This newspaper, and every other paper in the country is a "public service" - it is informative, educational, humanitarian and civic-minded. Dad turns first to the news and editorials; Mom likes fashion stories and recipes; the kids like the comics.

There's something for everybody in every phase of everyday life! Fundamentally, your newspaper serves you with information - whether in the news columns, or in the ads! Truly your paper is a "service centre" . . . the meeting place and the marketplace of the community.

## A Voice of Dissent

A Voice of Dissent Mr. Heart Vanicels of Montreal, past predicated of the Canadian Association of Consumers, it a courageous woman. At the tilberal party's national rally in Ottawa she has expressed who presumal income tax cuts to spur the economic valued and performant income tax cuts to spur the economic ward and help overcome unemployment. It goes without saving that this is no way own friends with the control of the co self-out agying that the through the self-out agying that the through the self-out and influence people who have votes. Since the Liberal rally is primarily designed for that latter puffose, and since its sub-committee on uncertainty designed for that latter puffose, and since its sub-committee on uncertainty of the country's consumers are likely to feel that their former leader has double-crossed them, for consulers and income tax powers are the same breed of pups, by different names. The sober truth, though, may be that Mrs. Vautlet is still the consumers' best friend. There can surely be little doubt but that income tax returns the self-out the

mills and ractories. The immediate effect would almost certainly be some alleviation of uhemployment. But the long-term result might well be to provide an additional dose of the medicine which has made our economy billous—an over-expansion of productive facilities in certain lines, so that no markets can be found for all the goods we can produce.

that no markels can be found for all the goods we can produce.

Let us be honest. Are not most of us who have steady incomes, high enough to require us to have steady incomes, high enough to require us to curcinos in these taxes are possible, airnedy living rather comfortably? What does Canada made and second television seits and ranch style houses and another car for the rock 'n' roll set? Or is it imploved blighwary, aidevalus and storm severes and another car for the rock 'n' roll set? Or is it imploved blighwary, aidevalus and storm severes and another car for the rock 'n' roll set? Or is it imploved blighwary, aidevalus and storm severes deficient of the rock 'n' roll set? Or is it imploved blighwary, aidevalus and storm severes when the recommendation of workers displaced by automation, of workers displaced by automation, of workers displaced by automation for severe with every severe the result of the rock of

it possible to embark on these socially-useful—and job-creating—programs?

A good stiff shot of liquor can temporarily ure the disconfort of a hangover—but this type of cure is never permanent. The anateur countering the particular particular the same doer not hold true of any attempt to cure the painful results of over-pensation in productive capacities by steps likely to produce further examples of the painful results of over-pensation in productive capacities by steps likely to produce further examples.

## A Questionable Policy

Castro is no Caesar and Uncle Sam is certainly not his wife, but one might be pardoned for wishing that, in one respect, our neighbor to the south would copy Calpunia and deport itself so as to be abore suspicion.

The New York Times, which certainly cannot be accused of being a Castro sympathizer, reports that the U.S. is supplying Guatemala with training personnel, material and other assistance in creating a commando-type force for a possible clash

Guatemalan authorities insist the undertaking

with Cube.

Guatellann authorities insist the undertaking Guatellan authorities insist the undertaking Guatellan Guatella Guatell

Most of us, if you will pardon me for betraying the universal secret, have, at some time or other, discovered in ourselves a readiness to stray far, ever so far, on the wrong road—loseph Con-

# STRENGTH FOR THE DAY

-DR. EARL L. DOUGLASS STAY ON THE TRACES

Many people so through life woodering whether or not they have missed their calling. Many have. Most people have been on the tracks part of the time and off the tracks part of the time. True success depends to some degree on being able to stay on the tracks more than fifty percent of the time.

I sat in on a business confer-ence recently. Every once in a while a real idea would be born and the different people would look it over. Suddenly would look it over. Suddenly one of the men exclaimed: "Ah. I have it. Bill Blank of the Blank Company will grab at such an idea."

Strictly Personal

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

While a number of die-hards are weeping creco-tears about Canada leeing prestige in which key circles, a let of Canadian puckchasing young-ra are risting a sizeable chunk of Danie's Inferne American collegiate hockey circles.

The current issue of "Time" says in a sports story, c Canadian inchery invasion has set off one of the creet fights in U.S. college athletics."

It all stems from the fact that the University of over won the intercollegiate backer championship is year—are well on libeir way to another—and over players are all justice Canadians.

Denver coach Murray Armstrong, himself a muck, and a former Will player, makes no apolo-e for the taction that won 38 of 140 games, and t year turned out a squad that best the American rupple team which took the gold medal at Squaw

And what is making most American college coaches bite their finger mails and acream to high heaven, is the zoot Army's club is detending its title against other Am-erican college teams that are manned mostly by Canadians.

Alligand with Amsteroug in the "pilys-Casadians," action are Colored Colored Michael Tech and Mildigan Michael Tech and Mildigan. Michael Tech and Mildigan. Find them in the caneny "mis-Casadians" tenches is a berry of Zasierra college coaches who are bleasting that the fields of Casadian investors are prove by American spacints.

The secret of Americana's success is that he is a spert alsopper. In Casadia's apprensariate of hodge range lacent in Casadia's apprensariate of hodge range lacent size departments when the best "meets" are may known the decignation of them the best "meets" are

Says he:—"The key is snooms in any siblete is ruiting. You can't make a race horse out of a side. I simply so where the best bockey is played— Western Canada—and look for players with good

But Armstrong stoutly maintains that none of his boys ever got salaries in the Junior "A" squads. Tsk, tsk, Army, sich goin's on.

All of which got a loud prolenged roar from Johns Martucci, Minnesota coach, one of the few Americans where made the NHL and who builds his team strict;

gri paid."

Irate anni-Canaddan cosches are going all-out to put the brankes on the Canaddan "invasion." The pultry committee at the National Collegista Alaboritation this month will debate a tongal messeru: telal loss of eligibility for a man who has played in any league that pays any of its players.

But in the meantime all is going well out Do way. Said one Denver fan: "All I care about is our Canadians best everyone clse's Canadians."

The sore spot is the fact that Armstrong went all out i got himself a complete squad of young Canadism yers, junior "A" or no junior "A".

"Red" Berensen, who was the saring of the Crechs during the McFariands European Junket, told me one afternoon in Zurich, Switzerland, that, at that time, young Canadian hockey players were lead ever shoulders above their American college coun-

"Red" who was playing for Michigan State at time, was not patting himself on the back. The you ster, modest at all times, was deadly serious.

"There are three Canadians on the State team," he said, "but we are not playing together. The coach uses us to bolster American-bern lines. Resides the coaching is vastly different to that I got in Western Canada."

Perhaps an unwitting prophet, "Red" said, "if we ad an all Canadian junior squad we would win the collegate champiouship hands down." Apparently Armorous bed, the same sides.

It is not too long are that American hocker scholarships were not too hard to obtain in this dis-trict. Among others to avail themselves of the op-portunity was Dick Pitapstrick.

If memory is correct Dick was offered four years free inition in a Northern New York State college. He did not complete the four years but during his sky was given w job as a waiter in a top-flight restaurant to earn

## Court Star Loses Out In Court

## Mr. Piersall Likes Boston, **Not Kansas**

LOUISVILLE, Ky, (AP)—
Cleveland outfielder Jimmy
Plersall says he wouldn't be
happy if traded to Kanass
City and, if he had a choice,
would take Boston over any
other town.
"It's more satisfying to play
for a pennant contender like
Cleveland than for Kanass
(Cleveland than for Kanass

other fown. satisfying to play for a pensant contrader like Geveland, than for Kansas City. (Frazid Lane has a Gevelanda granda sheet of the Lane on the state of the Lane of the Lane on the Lane on the Lane of the

create more excitement take Piersall, he re Wednesday For a speaking engagement, said he resilize; Lene has "got to keep the fanc coming. He apparently thinks I might help. I apparently thinks I might help. I apparently thinks I might ac choice of cities, 7.6 take Boston where my write and seven children live."

DEFEATED NEWPORT
NEWPORT, Wales (AP)—The
South African Rugby Under
team survived a rugged second
half and defeated Newport 3-0
we dines day. The tourists
scraped home to victory by a
try scored by Piet van Zyl in
the fourth minute of the game.

## Slum Clearance Problem

Slum Clearance Problem
We do not know whether there are any reliable
statistics on the subject, but we would wager that
a smaller percentage of Canadana own-their own
homes today than did so a couple of decades ago.
homes today than did so a couple of decades ago.
how of the couple of the couple

Nonsensel Can a person be said to "own" mything for which he must continue paying for tother ten, fifteen or even twenty-five years?

True, a great many Canadians today have an quity in their own homes and this is all to the rood. How many, though, live in a house which

a not carrying a mortgage?

Canadians are a nation of renters and whether company, trust company or chartered bank in the company, trust company or chartered bank in the form of monthly installments of mortgage princi-pal and interest is irrelevant and immaterial.

We ought not, however, jump to the conclusion that this is a most deplorable state of affairs. It is difficult to see how else we could have accommodated our expanding population and the vast majority of those who are paying off a mortgage have made a sound investment

It is the type of investment which thousands of other, poorer, Canadians would like to make, but cannot. These are the low-income families who dwell in the slums of big cities, most of them in apartments and flats in old, rundown buildings.

in apartments and nats in oir, runcows buildings, issue clearance is one of the biggef problems facing this nation. It will be costly, but there is no good reason why, in the main, it should be beyond the capabilities of private enterprise with a minimum of public assistance—perhaps in the form of some tax relief in the early years of such profects.

projects.

What private enterprise obviously cannot handle is the housing of those low-income families which now dwell in these alum areas. To be economically feasible, without extensive subsidies, the new buildings will have to bring in substantial

rents.

This is one of the reasons why a fairly good case can be made out for subsidizing of aium clearance projects. But there is really no reason why the displaced families must be housed to the many facility. They could be moved to other many facility. They could be moved to other the country of the co

One major reason why housing costs are so high is the high cost of land. The amounts which various levels of government will have to pay for subsidized housing could be materially reduced if some equitable method could be found to reduce some equitable method count or forms a scale land prices. In many instances, present prices are the result of extortionate exploitation.

Henry George, whose single-tax proposals stirred up controversy in another generation, maintained that all land values stemmed from the com-

izined that all land values stemmed from the com-munity. Withough the existence of the community, land would be valueless. It is easy to plex flaws in this argument, but it is not completely about. It is a well known fact that in most rural districts whole farms are sold for no more than the re-placement costs of the buildings atanding on them. The land, in effect, is a bonus. Many clitics have the control of the control of the control of the con-culpinal purposes and which is taxed as next when such agricultural land auddealy becomes when such agricultural land auddealy becomes valuable, has the community no right to demand a share of such an increased value, perhaps based on share of such an increased value, perhaps based on the difference between taxes paid in the past and the taxes which would have accrued had the asthe taxes which would have accrued had the as-essment been in accordance with the price now demanded? In this manner a more proportionate share of the cost of growth would be paid by those who reap the financial benefits of such growth. As it is now, a few reap all the phofits, while all of us will have to help pay for the costs of expansion.

## Dog Daze

It is a journalistic maxim that if a dog bites a man it is not news, but that the biting of a dog by a man does constitute news. Just as freezeworthy is the 'tlem cabled from Japan about a man being about by a dog. This seems to have been accidental. In North America such carbent secreted for the human species. (Ottensies is reserved for the human species. (Ottensies is reserved for the human species. tawa Citizen).

The greatest task before civilization at present is to make machines what they ought to set, the slaves, instead of the masters of men—Havelock

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor Course Maniago, the Mournful Maestre of the ted Meb, is unhappy.

timed Meb, is unhappy.

The elongsted goalie, who models in a pencil facy in she off season, was the darling of the teens and
envy of youthful goalies during his brief sojourn with

McFarlande a year ago.

Since that time this Marce Pole of the Ice-lance has been kicked around, pushed around, and knocked around and more times than a cue ball in a fast tillt of snooker,

Cesare doesn't mind be CESARE MANIAGO

A few days ago he told the management of the skane Comets of the Western Hockey League, his pro club, to go take a jump into the warm waters the Facific and not come up until it sighted Hono-

Now it appears the Comets' brans did not think fair that a youngster should bear all the brunt of cavy goalkeeping, so they secured the services of a eteram, Gillis Boivert, and adopted an "alternative"

Being the leading actor for one game and a stand-for the next, did not appeal to young Maniago's idea of aying hockey. After all, a guy should be in there orking all the time. Besties he was liable to get the "bends" holding down the end position on the bench

So, in the parlance of modern times, he did a ble flip. He flipped his lid—and likewise his pads In Vancouver, following a game there, he looked at his duffle bag with its slogan "Have Pads—Will Travel"

He told the Comet brass he was not in favor of this share-the-shots stuff, that he was going home, and besides hadn't the Sudbury Wolves, a Maple Leaf affiliate, sent him a message?

He was promptly suspended by the Comets and later it his reason for jumping the team wasn't strictly ause of alternation, but also because of "some person-

While he was in the east, Cesare flitted from go to goal-post like a hungry humming bee in a g of roses.

Then he graduated, and Professor Ernie Gomah of Kitchener Dutchmen secured his services for senior duty. Shortly atterwards this Paladin of the Puck ted his wanderings.

Then Cesare became Olympics trade-balt. Go-recalled him to the Dutchmen, later swapping temperarily for the Windsor Buildorr' Don Head, went to Squaw Valley.

event to Squaw Valley.

Enter the Chatham Marcona and locancious JohnHercek, who siredy had used more realteepers not expended to the control of the control of the necessary of the control of the control of way Ceaser forced himself in a Marcona uniform in the listest Chatham realls had strangely dis-cared and went on to cover himself with Allan glory.

Theorem so the prose-star too west.

It seems a bit of a shame that Cesare did not stay
nateur" long enough to catch a place on his homera Smoka-Easiera, who, as has been neted, will
t be Europe next month. But he is now a pro
if the tolurnament is "out."

#### Wishbones and Backbones

At the first of a new year it is not at all uncommon for leading industrialists, economists and politicians to predict a bright picture for the coming year. Hope always springs eternal as the philosophers have said.

philosophers have said.

Of the many such expressions of faith in the future issued for 1981 we have found one to be found to be a support of the said of the faith of the fai

Mr. Wood, as reported by Devon Smith of The Telegram, recalls that at one time we had to do "and do them better-in order to feed, clothe and house ourselves adequately." Too'ze however, Mr. Wood feels there no longer exists this sense of self reliance and acceptance of individual responsibility.

As Mr. Smith comments, "we do tend to

believe there's plenty of slack strength in the works somewhere, excess money or time or business, to make up for our personal side-stepping.'

How true this is of too many contempora

Canadians! Too many of us, either collectively or individually, tend to expect the government or some "George" to do things for us rather than to accept the responsibility for working out and overcoming our own failings or problems. Democratic government was originally a de-

vice of man to provide a means to an end, that end being the freedom and prosperity of the individual. Such a form of government was invented to enhance this end by ensuring that man could operate as a free entity choosing his own goal in life and his means of obtaining or working towards that goal, providing he did not clash with the rights of other individuals to the same framework

At this time man realized that, with the civil peace of the country maintained and with his own rights as an individual ensured, he was free, as an individual, to work at whatever job he saw and to work as hard as he saw fit in order to feed, he and house himself and his own as he saw If he falled in this, or if he did not progress as far as he felt he should, he would only upon himself for the reason for such failure. upon himself for the reason for such failure. Re-medy could be sought either by taking up a different vocation, working harder or choosing a more realistic goal, as the circumstances dictated.

That such a way of life can be successful, both for man and his society, is readily evidenced by existence of such nations as our own or the United

Now, however, there is a most dangerous tendency in people to look for a "mythical cushion," as Mr. Smith so aptly puts it, to take the shock of failure brought about through their own "personal sidestepping." The most predominant and glaring indications of this are the inordinate and unhealthy numbers of requests being made for

unneauty flumers of requests tenig made or subsidy. This is because most people have grown so accustomed to the presence of their invention, government, that they are prone to blame it rather than themselves for any hardships encountered within its framework. People seem to forget that government is to provide the framework within which the individual is free to express him self, advance himself and enhance his position through his own efforts. Government, in a free society at least, was never meant to serve as a crutch for the individual, to spoonfeed him and nurture him as a farmer would raise baby chicks.

There is a most important facet of, our current civilization and of our immediate past history which too many people either have forgotten or have learned little about. That is free enterprise. This is in no way meant to be freedom for the enterpriser to run rougshod over those about him in whatever manner he sees fit to achieve his personal goals or to realize a profit from his endeavors

Rather, free enterprise is the provision for the advancement of an individual through his own hard work and initiative within a framework which him to do so with a minimum of interfer-

sallows him to do so with a minimum of interference-from any extraneous power or force white-the same time seeing to it that he, in turn, does not deep or obstruct the rights of others to a similar course of conduct.

If the government were to do what would be best for Canada and each and every Canadian it would take swy the many crutches which crippie rather than creating with the red of the crippie rather. The course of the conduction of the crippie rather than creating which breeds independency initiative and strong minds in strong bodies. It would restore that set of circumstances that would allow men, and require men, to do things "and do them better—in order to feed, clothe and house ourselves adequately." ourselves adequately.

Now is certainly the time for many of us to our backbones where our wishbones have

And similar thinking along these lines is going on at the University of British Columbia.

at the University of Brittin Columbia, McGill's coura-geous experiment should en-sure a deeper and better-bal-anced seelction system than can possibly be expected from merely looking at a student's cold statistics.

#### Canada Road Outlay High

Fort William Times-Journal
In its Business Review for
November the Bank of
Nontreal brings out a fact
that might be considered
well by Canadians everywhere whenever they are
tempted to be impatient over
the progress of new road
building.

The fact: During the past 10 years new surfaced roads to talled 12,000 miles, or 40 times the breadth of Canada. We are told that Canada's per capita expenditures on roads and streets is presently the highest in the world.

world.

This is not a had state of affairs — rather it is something to cheer. The main charge which Canadians have is to open up the great expanses of their large country. There is no better way-of doing that than that of road-building.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Paul Pender, the Maine, Massachusetts world middleweight champion who puts his share of the title on the line isosight against Britain's Terry Downes, leves boxing like a mongoose leves a snake.

into a mongoose loves a snake.

18 30-year-old veteran of a dozen years of oldagain-on-again ring activity actually deepluse the sport
If he could have found another way to make a living the
only gloves he would put on would have been his father's
winter militers.

He just deem't like the idea of people making a living by beiling one another. "The Lord never in-tended a manute be hit," he says—and keeps right on bexing.

The reason? Messay. Funder has a wife and two small children and none of them ever had it as road sefer he was finded by the seed of the s

Despite his early victories—he won 28 of his first 28 fights, 13 by knackests. Pender was a virtual unknewn when he mouverdened Sugar Ray. This victory was a stanning surprise, including Robinson himself. It was supposed to be a quickle for the erst-while song-and-denoe man of Montmatter.

They mid the second fight was a carbon copy of the except Pender looked better and Robinson looked se. Again the Boston boy won on a split decision.

After he turned pro he was undefented for two years, n he went sour. Gene Halmton knocked him out and west on the akids. From then until last year, he ed only occasionally.

His hands were brittle. He broke his right four times and his left ence. The left had a bone break is it when he met Gene Fullmer in 1955 and he broke the right in the third reund, but stayed in there to lose

He west on the carpet and backtracked somewhat, aying-will be know was what he had read in the papers, the got sway with a repringend. After the first Robinson light, a stern-faced Peosler said that all he wants from coming is money. "This is a business," he said, "I have no love for It."

He meant it. He is treating the sport as a busi-se. He trains hard and conscientionaly and is al-yes ready when the bell rings. Today at 30 he is the best shape of his life.

He is a jabbin and a boxer, not a slurger. Boxing servers say that in the second Robinson fight in the three hard rights in 15 rounds. Ho for the form in three first part rights in 15 rounds. Ho for the lists and plaqued Robby with double-bar-tol younders. His est-breken right is intrictive. his the old geniteman from Harten with it three mass to the laws and coulch't knock him off his fulling the second results of the laws of the laws the

Touight may be different. This British Mr. Dewnes has all the characteristics of his island builder. He is a charging, hard-hitting fighter with a fine kneckest record of his own. Mr. Fender had best not sell him short.

Western Hockey added singles. The Victory Socrets were George Ford and

#### Much Ado About Little

Lester B. Pearson stirred up a lively blaze of ntroversy with his reference at the Liberal rally nuclear weapons, but any person who can make uch sense out of the argument must have built-

In radar.

Mr. Pearson told the raily that Canada should not have nuclear weapons. This was hailed by some as a new Liberal policy on defence. In the first place the Progressive Conservative Government has said practically the same thing on more than one occasion. Both Prime Minister Distribution and Multiple of Edward Affairs Jioward Libera and Multiple of Edward Libera and Li Green have intimated their opposition to Canada joining the so-called "nuclear club." Secondly. joining the so-called "muclear club." Secondly, all these renunciations are somewhat skin to be town drunk renouncing all ambitions to become the King of Rogland. Canada has no facilities to build her own atomic bornis, could ill-afford the construction of such plants and is about the construction of such plants and its such as the such likely to be presented with atomic bombs from other sources as it is to be the first country to land a man on the moon.

What Canada might obtain if it wished, and may even have forced on it against the better judgment of many of its clearest-thinking political leaders, is the statishing on Canadian soil of nuclear weapons manufactured in the U.S. and

remaining under the control of the U.S.

The policy of the Diefenbaker Government on such a possible situation is not clear. There was a time when Mr. Diefenbaker and Mr. Green seemed to have set their faces against any such development. But more lately there have been stories about a difference between Ottawa and Washington regarding control of such nuclear weapons if located on Canadian soil—with the U.S. wishing to retain sole control and with Prime Minister Diefenbaker said to be insisting on joint control, without, however, definitely committing. Canada to accept such weapons on its soil even if the right to participate in their control w

granted.
What Mr. Pearson now proposes, in a clarifi-cation of his remarks to the Liberal party, its remarkably similar to this tentative government policy. He would approve of Gahadians having tactical nuclear weapons for defence under strict NATO control. Any nuclear weapons based on Canadian soil would almost certainly be for defence against enemy aircraft or, if an effective anti-missile is devised, against ballistic missiles. So there is not so much difference between the possible joint U.S.-Canadian control being pondered by the government and the NATO control plan of tactical nuclear weapons suggested by Mr. Pearson.

NATO-controlled or joint controlled by Canada and the U.S., does anybody suppose that nuclear weapons based on Canadian soil, whether tactical or strategic in nature, would not be used if a fullscale nuclear war broke out between Russia and the U.S.?

There are only two realistic nuclear policies. One is to pin one's faith on the theory that the ability to destroy an enemy utterly will effectively deter that enemy from attacking—and to cooperate with the U.S. in making this deterrent force

erate with the D.S. in making this deterrent force as powerful as possible. The other is to eachers and any co-operative defence alliances with powers possessing them. This is akin to pacifism, but it is a pacifism the logic of which has been im-measurably strengthened by developments since the end of the Second Great War.

It can be argued, with considerable force to judge from the facts available to the layman, that Judge from the facts available to the layman, that there is no effective defence against a nuclear attack. The lack of any nuclear detentive wea-ter that the state of the state of the south maintains its present nuclear deterrent. What it does do, though, its to avoid giving other middle-sized powers an excuse for seeking to acquire nuclear weapons. If Canada controls them, even nuclear weapons. If Canada controls then, even only fointly with the U.S. or jointly as one of the members of NATO, what logical objection can be How many of us would like to live in a world where there were not merely three—or four if one counts France—powers capable of starting a nuclear war, but a dozen or a couple of dozen holding the fate of the world in their hands?

the fate of the world in their hands?

That is the argument for unalateral renunciation of the possession of nuclear weapons. It is not an argument without flaws, but it is at the same time an argument which it is possible to defend. It is, though, very far from Mr. Pearson's position, which, in spile of all the fuss made about his statement, is as close to that of the Dietenbaker Government that the differences are hardly worth the debate which has been stirred up? If Mr. Government that the differences are hardly worth the debate which has been stirred up. If Mr. Pearson wants to provide a Liberal spliemative to the Progressive Conservative policy, hb will have to do better than this. He might, however, legitim-ability neight hat it would be easier to draft an alternative policy if it were possible to discover precisely what policy it is an alternative to.

#### Reasonable Air Travel Is Possible

By SYDNEY J. HARRIS Following up a recent column of mine, on the cost of long distance commercial article flying the travel editor. Of The Calcago Daily News has come up with some interesting comparisons that think other newspapers should carry.

lany previous place I men-tioned that a "lamily plant," review and the mention of the review and the mention of the would cost BYT by jet mon Chicago to Los Angles, By poach class, il is only \$100 less, Surely, the awarage fam-ily cannot afrord this for a two-week or three-week vaca-tion.

ion, Trans-Canada Airlines, how-Trans-Canada Alrilnes, however, has adopted a long-dis-sure travel rate that it sound, to the control of the control of the con-cept of the control of the control of the con-tray a mass medium. On TCA, if our family travel-de are equal distance Chicago the could distance Chicago to the control of the control of the control of the con-trol of the control o

fare on U.S. carriers. How is this managed by TCA? "TCA's new system of fin-ing rates," writes the travel-editor, "in based on the pro-ser one equal. The passenger who fles a short distance net-ually costs the sirline net-ually costs the sirline net-tually costs and fight — costs the sirline neture news.

the artitus far leas."

Long non-stop runs are cheaper for an attiline to operate it may cost life a possenger mile over a 200-mile route, but only 5 cents a passenger mile for a 1.500-mile route. Yet both kinds of passengers mile appear mile, what it amounts for the that What it amounts for the that

per mile. What it amounts to is that the passenger flying from New York to Los Angelee is subsidizing the passenger who files from Chicago to Detroit. On a long flight you are beloing to pay for someone else's trip.

the first payed we seek the payed to be the pa

tempting to the average ramity.

We don't need or want a government airline in the United States. But then the private air carriers must be willing to adjust their fares with as much selentific precision as they adjust their soutnes.

A Straight Look at Unemployment

A Straight Look at Unemployment
Hon. George Hees, Canada's Minister of Trade
and Commerce, has taken a hard look at Canada's
current symployment situation. He has also proposed a solution which is neither unique nor, for
a large number of Canadians, say to accept.

Mr. Hees proposes that Canadians will have
to do loday want Europeans have been doing for
which are the second solution of the control of the control
and labor. Immediately atter the Second World
War-Facatly every European country, except Switeriand, was faced with the problem of building uplis economy and its means of production. In
major countries labor and management entered

its economy and its means of production. In major countries labor and management entered into an agreement whereby labor agreed to a strike-free period for four years and management agreed to regular wage increases based on the cost of living index. This arrangement proved so successful that it has been continued on past the initial four-year period up to the present. It has resulted, as Mr. Rees points out, it some Suropeah nations, which leads points out in some Suropeah nations, which have been considered to the control of the control of the age up an invested of production it by our ago, build-ing, up an invested of production is the control of the age of the control of the control of the control of the control of the age of the control of t as competitors in the world markets, even though the production lines of the latter countries were at

the production lines of the latter countries were at their peak of productive efficiency in 1945. These European countries are now troubled only by not having enough labor. Switzerland, for instance, which adopted the same program as her less fortunate neighbors, recently had to infthat a vigorous immigration program in order to obtain enough workers to staff some new plants. In North America, on the other hand, unemployment has become an almost chronic feature of our economy. Whereas these European countries have no unemployment problem, in Ganada there are many unemployed and not a few who are earning either too little or too much.

European manufacturers are hard put to produce enough goods for the world market where-as some Canadian manufacturers are crying for as some Canadian manufacturers are crying for protection on our home markst. One of the main reasons for the lack of orders for Canadian products is obvious: they are too high priced. No matter how much other people may like Canada or Canadians, they are not prepared to buy our goods when they can get a lower priced product from some other souce. This attitude is even reflected by our own preference for cheaper imported goods.

It is obvious that if the unemployment attuaction is to be used in Canada, work is solar to have

It is obvious that if the unemployment attacts to is to be used in Canada, work is going to have to be found or created through the sale of Canada and Can between Canadian management and labor such as has never existed before. If this sort of arrange-ment cannot be worked out between labor and management it appears that there will be little size to look forward to other than a continuing period and an increasing range of unemployment-jan Canada. Canadians will have to be prepared to give up some of their luxuries in order to have the basic exentials of food, shelter and olching. A mirt of concertain between labors and

the basic essentials of food, shelter and clothing.

A splitt of co-operation between labor and
management similar to that experienced recently
in a plant in flolland deserves the serious consideration of Canadians. The employees of this plant rejected a management-proposed wage increase on
the basis that they feit the raise would create a
price increase that would result in a lessened
demand for their product and create, in turn, a
possibility of unemployment.

There is little use in crying for more public
works projects, for these must eventually exindis
works projects, for these must eventually exindis

rance is little use in crying for more public works projects, for these must eventually dwindle in number and, even if every city in Canada needed a new post office, such projects could not provide enough employment to supply jobs for those laid of plus those just now entering the working force for the first time. The government cannot do everything. It is up to both labor mant cannot do everything. It is up to both labor and not after the expense of the other or of the Canadian The expense of the other or of the Canadian consumer

Co-operation, self-sacrifice and determination are the answers to the challenge facing Canadians as Mr. Hees sees it. We hope that Canadians will give close attention to his words and take win give close attention to his worm and take effective action on his proposals. His is a mature appraisal of, and a truly constructive solution to, what is the meet important problem facing Cana-dians today. What we particularly like about the proposal is that it has been proved to work, and work most effectively, in other countries.

Should a Communist version of the United

Should a Communist version of the United Nations ever come into existence, the hierarchy among the member countries will be determined only and strictly by their strength and wealth. There could not possibly be any equivalent there to the prestige enloyed by nations that have enloyed great power in the past, like Britain, or will enloy it in the future, like Candia. (New York Reporter).

Meeting and talking with international sports figures and hearing some of them relate their big moments in e. world of sport is ample payment for the \*\$15 talk\*, ou see the personal side of these people. After all one of the people is the people of the p

Such people as Johnny Unitas, (by the way, he'll be there, too), Mascrooki and other representatives of current world champions provide great moments both from the rostrum and in personal interviews.

This is the tenth annual Sports Celebrities Dinner nsored by the Association. And we are rather proud-our accomplishments to date.

I think you will agree, and forgive a little horm-blowing, when the records say that the first nine din-ners netted \$185,241.33 for the unfortunate youngsters. We hope the January 26th affair will boost this total to \$100,000.

Some of the funds built main lodges at two ed children's camps, a sleeping cabin at another iped pay for a crippled children's dressing roc a Lakeshore Swimming Pool.

The 1981 dinner marks continuation of a crive for \$200,000 to pay for a swimming pool at the On-tario Crippled Children's Society's projected \$4,000,000 centre in Toronto.

BEAT eggs and sugar together. Add milk and melted butter, Mix

SIFT in the floor, notineg sec cinnamon or mace to make a sell dough. Chill 30 minutes. oougn, chail 30 minutes,
PAT the dough to ½" thickness on lightly-floured board and cut with doughnut cutter.
FRY 3 minutes in deat heated to 380°F. Turm once. (A 1" cube of bread will brown in 1 minute at 390°F.) Drain on anglazed paper.

YIELD: 256 decre.

#### THE FINISHING TOUCH

#### You'll get Better Results, Here's Why-

There's a big difference in results because there's a wonderful difference in the flour. What is a selfwonderful difference in the flour. What is a self-raising flour? Simply this, BRODE XXX SELF-RAISING. FLOUR is a finely milled high quality enriched flour with baking powder and salt already added and thoroughly pro-blended. Now you can enjoy all the extra convenience, and dependability of self-raising flour. Try the recipes on the right and see why BRODIE XXX SELF-RAISING FLOUR is the flour with the wonderful difference.

BRODIE XXX SELF-RAISING FLOUR gives you these three big advantages:

1. Accurate measurements ... you sift only once. 2. Even blending ... no chance for 'hot spots' with too much baking powder or 'flat spots' with too little.

3. Perfect leavening . . . Brodie's exclusive baking powder is heat-controlled so your batter cannot rise

there is a difference in flours...and

#### High Cost of Idleness

By late spring or early summer, if the pessimists are correct, the unemployment insurance fund will be exhausted.

Nobody expects that this means the termination of themployment insurance payments. The Federal Government will find the necessary funds somehow, either out of general revenues or by borrowing or authorizing the Unemployment Insurance Commission to borrow.

The difference will be that these payments will no longer have been provided in advance, through contributions of employees and employers.

This change is certain to arouse a storm of criticism. The depletion of the unemployment insurance fund may thus prove a blessing in dis-

guise.

If the cost of supporting men and women in idleness is ever met out of general taxes, somebody may wonder whether it would not be possible for the Government to get better value for the money it spends. Public works projects will be suggested. They have been considered before, of course. But its obviously much cheaper to pay unemployment insurance to a hundred men than extract the contract of the contra used in any projects they might undertake.

In what way will the situation be different when the unemployment insurance fund is ex-hausted? Just this—we have a hunch that, be-cause they were termed "insurance" payments, contributions to the fund were never considered as a levy on taxpayers, though the effect on employee an ery jour daxpayers, drough the enect on employee and employer allie was just the same as if these contributions had gone into the general revenue fund. For this reason, when figuring the cost of public works, consideration may not have been given to the true net cost, which would not have been the total cost but rather the difference bebeen the total cost but rather the difference be-tween the total cost and the cost of paying these workers for doing nothing. If the cost of works projects and the cost of unemployment insurance, payments erer both come out of the same fund, this misconception will be eliminated.

this misconception will be eliminated. Viewed in this new light, it is possible to conceive radically different ways of handling unconceive radically different ways of handling unconceived the result of the conceive radically different ways of the government two weeks' notice before laying off any employees. The government could then consider whether there were any profitable ways in which it could use the products of this farm. If we, it could place were any profitable ways in which it could use the products of this firm. If so, it could place an order which would arert the layoffs. The net cost of the goods so purchased would not be the sum charged the government by the manufacture, but rather this sum lose the amount of un-employment insurance payments which would otherwise have had to be distributed to life men. The prevent a manufacturer abusing this system. The prevent are manufacturer abusing this system, gather of the net profits which results of rong system of the profits which results of rong government public works orders.

From private concerns, rather than depending on government public works ordered. The total cost to the national treasury, and therefore, it the taxpayers, would certainly be more than under our present system, but in return the nation would get many services it now needs but lacks — better roads, more sewage disposal plats, improved educational facilities, more parks, provided the condition of the conditional provided the conditional provided

No nation ever got rich by failing to utilize its most valuable natural resource, manpower, be-cause this was "cheaper" than putting it to a socially useful purpos

Jeause this was "cheaper" than putting it to a socially useful jurpose.

Men kept working at full wages will buy more, and the sept working of others, than these same men lider, more work for others, than these same and lider good was to make the because the Those men, who are made idle because the goods they produce, might reasonably be paid as decreasing scale of benefits, as the period of their unemployment lengthened, if they retued to consider moving to other districts where jobs in their line of work were available, or refused to be trained for other types of work.

For other types of work.

For other types of work.

In insurance fund, there might be less tendency, common today, for workers to consider that they are somehow being cheated if they do not draw out of the unemployment insurance fund as much as they have put into it.

#### LEGISLATIVE HAZARD

Representatives in the French National Assembly are not sufficiently adopt to cope with their new electronic voting machines. M. Ripert, deputy from the Bouches-du-Rhong, learned that because of his inspitules with gladgets, he had voted "no" to an amendment that he himself had proposed. (Farls Jour.)

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor.

The morning mall brought a billet-doux from a guy whe apparently feels a teach of spring in the air and who, if seems, has been in deep mourning since his beloved Yankess were Meastrack'd out of the world

Wrote he—Ton fitped your life, column-wise, when your danged France wen the National Learner life. You glossed in unbey sies when the Yankess were robbed of the world series by a lucky pole by Bill Mascroads. As a Frinch you would make Long John Silver look like as alumnus of the Little White White

"I bought you a Christman present which tained among small door of you-know-what, a b ere-patch, a per-leg; an arm-hook and a Captain is semberor. I even made plans to have you walk plank from a retaining wall of the Moira River.

"My committee later withdrow that part of the pla They felt the river pollution was bad enough. Besid the placerel are running at times."

"Now, are the Yankes still alive, or would you know? | Den't give us any more of this Firste staff, "beum? | They will need it. No decont Yankes far "beum?! They will need it. No decont Yankes far would have saything to do with those refugees from Fishbush who traded the Brooklyn for for the L-A.

none:

I do not exactly agree with the last statement, sir.

Its Discount to Vision and the continuence has

Its Discount to Vision and the continuence has

the continuence has been as the continuence has

Its Discount to the Discount to the Discount of the Continuence

Mr. Hanny, it soems, has scraped the for and
more from the person of one Date Saffer, a "Somet

of the first Brooklyn water. It leads like he would

and likehalle personality, to any solding of the ability

to park a basebul over and herend the existencied

milks of means restrictions, to the 10th office of the

And here is nomething cise to soothe your fever baseled brow. The Yankees have signed Lawren have been been sometimes known as "Nogt" to a contra-calling for \$53.500. If you Ask your perchiatrist y-will discover that this means roughly, one thousa-smackers per week.

Sixteen years ago the 20-year-old Yogi signed his first Yankee contract which called for \$5,000. He was a bashul tougue-tied youngeter, who rarely spoke to any-one. Now he is a glorified athlete and a successful

Yogi has been writing, skating and bowling. Make that halping to write a book of his life. He is in tip-top shape, weighing '194 pounds. He is the clieb player on the Yankwe team both in point of service

Mr. Baigh. Hauk, who stepped into Caser's shot I doesn't know whether they fit as yet, is delight have Yord sround. He, with Elston Howard and Job nebard gives the Yankees three topflight ostobers.

Berra has an eye on that 2,000 hit mark. He has 1946 to his credit, needs 54 and hopes to get them this summer. "If he doesn't." says Houk, "we'll be in trouble."

Yogi tuned in as Hamey and Heuk talked "shop." His ears perked up as Heuk opined the Cleveland Indians, the Chicago White Sox, the Baltimere Orioles and the improved Detroit Tigers might be the teams to

Of course they could have added the Pittsburses, the LA. Dodgers, the Milwaukee Braves and isso Giants. They probably figured that was a broress when they come to it. If they ever do. \* \* \*

#### ABOUT THOSE SKATES!

Thanks a million to the good people who have sent in used states for the needy Indian children of the horithland. Mr. Anrus Duffr, of the Cities fer-vice Off Compuny here, tells me he has collected 113 pairs. That is something Belleville should be proud

King Whyte, noted conservationist and TV per-sonality who originated the drive, says the project is pro-ceeding nicely. A recent estimate, he says, reveals some 2,000 pairs of new and reconditioned skates have been sent to the kiddles.

The drive is sill on. So if you have any child-ren's skaise lying around, picase call Duffy's Service Station and a staff member will call for them. The number is WO 2-5785. Do it now, please.

Naval Base

HAVANA (AP) — Fidel Casitro's cabinet needled the United
States today with a zeries of

new decrees. In a reasking until after midnight, the cabinet:

1. Ordered all Cubans and for eigners employed on the U.S. naval base at Cubantanamo an living outside the base to ge special work permits from the Cuban government.

bans trading with it—to get special permits.

3. Ordered drastic changes the Spanish-American War mot urnent in Havana.

d. Decreed Cuban citizenship for Laura Menses de Abbizu Campos, wife of a Puerto Rican tantonalist leader imprisoned by the United States for urging the overthrow of the U.S. gov-

FRANK H. HALL

Non-op Negotiator

Angry at Criticism

S. Decreed Cuban citizenship for Juan J a r b e s, another Puerto Rican nationalst leader. 6. Ordered dissoution of the Cuban-American Cutura Institute, charging it has been converted into a propaganda outer for the state department. MOST LIVE OUTSIDE

work at the base and amost a of the miltee outlief, in 1934, the last year for which records are available, they were paid nearly \$7,000,000 in wages. In addition the base in 1966 bought \$1,200,000,000 worth of Cuben profue 1966, which would be seen of the regime was a get its bands on all dollars pet by the base in the Cubens. The government has set unusum offices outlide the bas guites to change the dollars outlief.

The government has set up customs offices outside the base gates to change the dollars of Cuban employees into peous at the official rale of one peous dollar, thus swelling Cuba' skirncy stock of dollar exchange. CHANGE MONUMENT The eagle atop the Spanith-American War monument was

concerns the following conposace, the decree saying the posace, the decree saying the the eagle was a "trugic symbol of aggression, vassalage and eploitation." The plaque on the sinking of the U.S. battletch Maine was ordered changed in pay tribute to the "victims" of the Maine who were sacrifice the Maine who were sacrifice the Maine who were sacrifice to produce the control of the take possession of Cuba." PRINTING, CONTINUES, C

The Lame Duck Flaps Vigorously

The Elsenhower administration has rejected a Canadian proposal which involved an exchange of defence contracts. Under the Canadian plan this country would have replaced outmoded and useless that the Canadian plan this country would have replaced outmoded and useless that the Canadian-built in 60 violous plan this built in the U.S. providing the October 10 violous providing the Canadian-built in the U.S. providing the October 10 violous providing the Canadian violous vio

old friends and sacisins wanter acute aromanically aromanically are to the acute acute and acute There may be good and sufficient reasons for the U.S. declining to accept this proposal. One cannot, help wondering, however, about the propriety of this decision being reached just eight short days before the Eisenhower administration houses the first own the control of the

omes history.

Cleaning up old business before one's successor takes office is an admirable policy—but it can be carried to extremes and result in something which appears very much like forcing the new management to accept the policies favored by the

It has been said that the Eisenhower administration has shown greater vigor and initiative in several fields since it attained the "lame-duck" status. This latest decision regarding the purstatus. This latest decision regarding the pur-chase of Canadian-built planes does nothing to allay the suspicions already aroused that many members of the Republican team are finding it much more to their liking to exercise their powers now that there is scant time left for them to have he entered top trouse ton-day.

He looked at the memo as
he'd never seen it before
—as indeed, he hadn't—then
began to read with a selfconscious grin amid commons lav-ther:

"Honorable Members are
sware that it is not my
practice to discuss current
—the..." to bear the responsibility for the results.

#### Them That Has, Gits

When John F. Kennedy assumes the presidency of the United States tomorrow, he will triple his annual income, before the tax collector gets after him.

him.

Financially, there can be few politicians in the U.S. to whom the presidency would mean less than it does to Kennedy. He will receive a salary HIMM IS GOES tO E-MEMORY. HE WILL FREEZE A SLARY \$100,000, or a total of \$150,000 taxable income, and in addition will be able to charge another \$40,000, non-taxable, for travel and official entertainment

Enough, though, is enough and Kennedy is a of those unusual politicians who already has financial worries. Divesting himself of in-ests which might be held to conflict with those. no financial worries. of the nation, he has enverted that part of his fortune over which he had investment control into honds. As a result, it has been revealed that he bonns. As a result, it has been revealed that he receives approximately \$10,000 as year after taxes from three trust funds established by his father, Joseph P. Kennedy. This means that his honome before taxes would be around \$500,000 a year from these funds. His interest in these funds must, therefore, amount to about \$10,00,000. Since his four sisters and two brothers receive equal amounts, therefore, amount to about \$10,000,000. Since his four sisters and two brothers receive equal amounts, the total invested must be in the neighborhood of \$70,000,900. This is approximately a fifth of the entire Federal Government budget in Canada enure Federal Government by prior the Second Great War.

If any president can ever have been said to have a "vested interest" in the prosperity of the U.S., surely that is true of Kennedy.

#### Misgivings

Recently Rev. George Kempsell, Episcopal rector of Scarsdale, N.Y., refused communion to those of his parish who supported the exclusion of a young Jewish convert from a country club dance.

His action has attracted considerable attention and many warm words of praise.

We would be more eager to join the chorus if the victim of the social prejudice against which the good rector has so firmly set his face were

a Jew in faith as well as in upbringing.

The proportion of unconverted Jews to converted Jews is so large we find it a troublesome co-incidence that it should be a member of the latter, smaller class whose plight came to Mr. Kempsell's attention.

We should not like to think his indignation we should not like to think his integration was no more than a demand that all his parish-ioners be accepted at a country club social function and that he would have had no interest in the incident had the young man still attended synagogue rather than church,

#### JAPAN'S POPULATION

Japan's ninth national census shows that the population has reached 93,406,445, an increase of 4,130,000 over the number recorded in the last census five years ago. The rate of increase was s,150,000 over the number evoluted in the second consus five years ago. The rate of increase was lower than the e,070,000 recorded between the census of 1980 and 1985, a drop credited to family planning. Japan now ranks as the world's fifth largest nation, following China, Indis, Russia and the United States in that order. (Okerwa

TABLEMAN OF MUNICALINA

TO TROBARY OF the work of the

by Mary Moore

Baby hungry II's a cinch to fix really smooth cereal in a flash. Gerber Cereals stir to creamy perfection in seconds when mixed with formula or milk. What's more, the consistency stays smooth throughout the serving. No wonder these quality cereals are so satisfying to a baby. by hungry? It's a cinch to fix really

Digestibility assured. Gerber Cereals are thoroughly pre-cooked and twice-tested to insure easy digestibility. Nutri-tionally speaking, they are efficiend with the iron so important to your baby's needs, of tablespoors provide over 100% of the Recommended Daily Dietary Allowance. In addition, they're enriched with B-vitamins and calcium.

Gerber Baby Foods, are prepared by specialists who work in the interest of

RICE CEREAL DATMEAL CEREAL PROTEIN CEREAL FROM

## Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Ig. 7 Johansson. the dimpled Smorpabord Smasher, has been humming lately "I See You in My Proums." This because, so be sized, he has drained "a thousand times" that he has knocked out Flord Faitfront, the mild-manuscred heavyweight, who left-hooked him into dreamland on the occasion of their second get-leopether.

Johansson thinks his dreams will come true. "Fill knock him out early" he forecasts. Fatterson figures his modus operandi of the second battle should do the 'trick again. "Tm training new as I did for the second fight. I think it should do quite nicely."

confidence is the stock-in-trade of any topflight be to 'the big moment.' How could be be other all those newshounds hanging on every word.

Ingy has come up with a new gimmlek. He says he knows for sure what kappened to him in the last fight, but "shucks, folks, I can't fell anybody! It's going to be my secret."

No, he wasn't "doped" for the second fight. It was ucker punch that felled him. It never happened to him ore—and it will never happen again, he says.

On the other hand, the champion says he doesn't understand how Johansson hit him between the gloves in the first fight. He threw two light rights. The third was it.

I remember seeing Floyd Faiterson at a Chlebrilles' banquet in Toronto a few years age. He was introduced to the green-gride-TV gang, acknowledged the introduction with an intiliation of the head, and that may it. He recembled a dark splyrar after that—and was about as noisy. After all, what chance had he. Manager Con D'Amales was doing all the talking,

But now, reports have it he has been rembling away h unaccustomed garrulity. He is relaxed and taking training in easy stride. He finds time to talk.

"Ingement is a smart fighter and I coard be over-confident," he said. "It a man is capable of mailing mus the way he did the first time. I must be cautions. I never was in a better comp than I was for the first one or worse than I was for the second. I saw worked as Newtown as I fell. That's what I'm goine do this time."

He said he hisn't atter hip crown the way the Swede did. "Tm a fighter, i movie star. And I avoid big dinners. I only charity affairs."

Patterson was right. He missed the New York Boxing Writers' Dinner because he had already com-mitted himself to one on Long Island for two doesn kids. "I didn't want the writers for think I was saahaned to silver up. It's just that I'd promised the kids and I couldn't disappoint form."

ds and I couldn't disappoint parm."

He fold rewrents that secondary, he wants to find worthwhile budoess to hard in. "I don't want years of the fit for m. "I see "I see

He said he has no ambilion to break 'As Louis' record as a long time champion. "For three years my wife has wanted me to quit and I've promised her that I will. Maybe it will be when I'm 10; I'm 18 new. That can wall, hough. The only thing I'm interested in right new is the fight-ion Marcha 11."

Eisenhower Steps Down

Today it is Mister Dwight D. Elsenhower.

Today it is Mister Dwight D. Elsenhower.

Dat's acetary of service to his country, Mr. Elsenhower today becomes a private citizen. He has sadd that he is proud to do so. Any country would be proud to have such a man in such a role.

The outstanding thing about his record, after awastly years of life, it that he leaves the highest criticals in the country not only full of honors but of critical sinks in country not only full of honors but of

honor, also.

Nothing that he has done during his eight years in the White House has dimmed the sibting reputation which he gained as Supreme Commender of the Allied Expeditionary Forces in Europe during the Second Great War. The most incritics can say is that victory has not crowned this excend crusacle for freedom, as -it crowned the first. This is obviously more the fault of the stimus them of the warn. times than of the man.

times than of the man.

When Essenbower first became Fresident, he entered into his duties parrying the unreasonably high phopes of many of his countrymen. Of him they expected the impossible. That he did not scalers it, as many believed him to have done in the campaign in Europe, may perhaps, have been partly due to his temperamen. "My experience in Europe convinces me that the settlement of controversy is largely a matter of knowing how to controversy is magiva matter of knowing now to work with people, convincing them of your own sincertly, and developing in them the good will and spirt of co-operation," he said in an interview in 1850. But in wartime he was working with men badacally united in their objectives, with such giants as Sir Winston Churchill and President E. D. Roosevit to guide him and men like Generals D. Roosevelt to guide him and men like Generals Patton and Bradley and Field Marshals Alexander and Montgomery to carry out his orders.

The men who selected that team for him were, perhaps, better judges of men than he was himself and those to whom, as president, he looked for advice and on whom he depended for the execution of policy can hardly be said to have matched his wartime comrades in arms.

Then, too, he was now trying to settle con-troversy with men whose aims were basically dif-ferent, and one of these men, Nikita Khrushchev, will probably go down in history as one of the most astute politicians, on a world scale, in modern times. Morever, and surely the most important, the tide of history suddenly turned against him. Russia's tremendous strides towards industrialization, her acquisition of the atom bomb and later of the hydrogen bomb and her pace-setting strides in the race into space provided handicaps under which even a greater statesman would have labored in vain and a lesser man might have broken or nanicked.

While, happily, Fresident Truman has been proven wrong when he warned Sienhower at Fotodam in 1945 that "a man at the top with a Fotodam in 1945 that "a man at the top with a Fotodam in 1945 that "a man at the position smeared if he went into politics," those who regarded his candidacy with distrust on the grounds that a great soldier rarely makes a great statesman may be of the same opinion still. But series if they will not grant that the hopes of those who most archard upsupported Eisenhower were hardly not still the state of the same property of the same of the same property of the same of the same in the s While, happily, President Truman has been criticism, oft-based, that he refused to do his "homework" ginores all the man's training—which was to delegate problems to qualified sub-ordinates. Had his hobby been reading inset of playing golf, he might have been known as the studious president, without in any way deroid, more time to the nerve-breaking duties of the world's most important office,

If his successor, John F. Kennedy, should

prove that a younger, tougher-minded, man, more ready to demand results than to stick to old ready to usuaman results than to state to old friendships, can produce better results, Mr. Dwight D. Eisehhower, we may be sure, will be the most over-joyed of U.S. private citizens at any step for-ward toward his long-held goal, a just and laying

#### DON'T BE A PEEPHOLER

Watch out for "peopholers"! They are the drivers who, in cold weather, scrape the ice or snow off only a few equate inches of their rear window to provide rear visibility. Some "peopholers" are content to drive with tou-critics of their holers' are content to drive with tou-critics of their holers' are content to drive with tou-critics of their holers' are continued to the cont in these contained is expensing immediate and observed users to unnecessary danger. A "peephole" car is evidence of a lazy driver—and also, a very selfish one. (Galt Reporter).

Two and two continue to make four, in spite of the whine of the amateur for three, or the cry by the critis for five—James McNelli Whistler.

Included radio publicity, newspaper advertising and releases, sublidits at the local fair and
educational work among high achool students. It was decided to embark upon a program of newspaper reports of each of the local industries in an attempt to acquaint the public with their importance to the economic life of our city and country. a is an active program in other Canadian centres in which young people form ministure companies in order to learn some of the challenge and techniques of intes. This seemed to our members to be a worthwhile approach. The Manufac-na has offered assistance through technical or material sad to help the Education mberz on this new junior schieferment projects.

# sound reasons why the Rambler Classic is your best automobile buy in Canada today

SEST OF SOTH\* The Rambler Classic is the only car in the low price field (Chevrolet, Ford; Plymouth) to combine big car comfort and performance with small car economy and handling case.

2 PROVEN ECONOMY\* During a recent gas economy test organized by a Toronto newspaper, the Rambler Classic outperformed all other cars in its class.

DIE-CAST ALUMINUM ENGINE\* The Rambigs Classic is the only car in Canada to have this type of 6-cylinder engine. It is 80 pounds lighter, gives better economy, better weight distribution and easier handling.

5 CERAMIC ARMOURED MUFFLER® Only
Rambler has this muffler. Ceramic
coating protects this muffler and tailpipe

6 DEEP-DIP RUST PROOFIES\* Only Rambler cars are rustproofed this way. The entire body is dipped into a rust-inhibiting solution, which gives pro-tection against rusting, even in Canadian winter driving conditions.

7 SINGLE-UNIT CONSTRUCTION\* The Rambler Classic is the only car in its class where the body and chassis are welded together into a single unit of incredible strength. No bolts that can work losse, nothing to cause rattles.

9 REALE VALUE The high quality of its construction gives the Rambler Classic a longer life. The permanence of its styling makes it a highly desirable car, even when it is several years old.

# WHY DO THEY CALL IT THE TRUCK TRIUMPH OF THE 60's?

Because GMC's Big Breakthrough ushered in the Sixties with the outstanding success of the finest trucks GMC has ever built! Here are some of the reasons for this great success.

Becarse of SMC's performance! You cut costs with 6MC's great enginee! Mow SMC Twin-Stx bötes the highest performance of any stander gas engine. Unique GMC V-6 has a built-is andurance of up to 200,000 miles —and SMC V-8 Dessels give more power por weight and more power per dollar!

Because of ChiC's dependability in every phase of your trucking operations I New Ideas in ongine design, high breakthroughs in chassis and cab engineering, improved structural strength throughout the entire spage of trucks mean more efficiency in your business.

Because GMC has the big choice in trucks! There's a truck—specially designed and tailored to your particular job from the tread up—in GMC's new fineup for '61! From pickup to tilt cab . . . from ½ ton to 60 ton, GMC offers a most flexible choice of power teams, chassiscab combinations and special duty equipment.

Because of GMC's dollar saving features! Ingeniously designed frames are lighter but stronger...
new engines—built to output, outlast, outsave comparable size engines . . . trucks designed to increase
aarnings a hundred ways! Because GMC offers more safety and comfort! GMC's are softer riding and simpler handling, thanks to independent torsion-spring front suspensions. And GMC's new Yaif-Rate rear springs on heavier duty models make every ride smoother—more comfortable empty or loaded!

Because of GMC's fine service network! Go to your nearest GMC dealer for the advice you need about your new truck. He's a trained truck man-like his experienced servicemen. They sell and service the best trucks in Canada-trucks by GMC !

from ½ ton to 60 tons... GMC leads the way!

# Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

No Canadian Amaieur Hockey Association has also the week of January 21st as "Minor Hockey t in Canada."

Minor Hockey Week has become an established part the Canadian sports scene. Observance of it is the t way to direct the attention of the public to the selfits of minor hockey to the youth and to the com-

Here in Belleville we have nearly 1,100 youngsist your organised hockey, under careful supervision felais are proud of the fact that it has the suppose many public-spirited citizens, eithe and other many public-spirited citizens, eithe and other manisations whose love of hockey and bors precup-on to contribute much time and effert to the cit-tor leagues.

Hockey is Canada's national winter game. It is one of our great heritages and participation by the routh of the city should be encouraged at all lavels. We are proud of the game, for its ability to develop character, citienship and respect for authority as well as for its physical and body-building benefits.

By doing so you will not only enourage these you but show your approciation and youquition of it standing eithers who are making a valuable con ion to Belleville as does the great Canadian game lony contribute entertainment and recreation of one Canada.

Se how about it Dad and Mom, Uncle Bill Aunt Tessie? This is the night you can see for y-self how that youngster of yours is doing, and well he has been cosched and taught.

Further observances of Minor Hockey Week in Can-a will be made next week. A youthful representa-e of the squirt, poewer, bentam midget and juvenile sques will be interviewed over Radio Station CIBQ. Ster time in snd hear first hand what these youngsters and of other favorte winter sport and what it is doing

them.

But, physically, toutish is the night. You have
a jo idos how much your attendance will be appreated not out; by the youngeters but those who work
ard for their hockey well-being.

Remember, if you are a hockey player's parent "Den't Send-TABE your Boy to the Arena."

#### A Change in Outlook

Pierre Berton, columnist of the Toronto Daliy ar, has taken up the cudgels against Ontario's seems system of religious education in public

His past record—the York Township probe, mortgage racketeers—suggests that we may event-ually see a commission appointed to study the

question.

This is really a remarkable turn-about in public opinion in the frief space of two decades. The present religious clucation system is no older than the life of the existing provincial government, although the public pressure which led to its adoption was already building up when the Hepburn regime was in the last throse of cabinet ministers playing musical chairs for the recently and the provincial chairs for the provincial cha

At that time advocates of religious education the schools were representing it as the only sible way to save the nation from atheistic and universal juvenile delinquency.

Communism and universal; juvenile editinquency."
The only person we can recall who had the courage to speak out against the trend was a ball-playing Lutheran pastor residing in a German-speaking tural community.

The danger of Communism can hardly be said to have issuened in the intervening two decodes, but suddenly it has become socially permissible, if not precisely socially desirable, to voice magivings about a system of teaching Provisation Christianily

about a system of reaching Protestant Christianity in schools which are supposed to serve the children of parents of every type of religious faith.

Jews have been prominent amongst those protesting and this is understandable. But it seems to us that the Jews, alone, would not have seems to us that the Jews, alone, would not have been successful in effecting such a change in the climate of public opinion. Of even greater im-portance has been the emergence of groups which are not of the Christian faith, at least as we understand that term. There are the Unitarians— —and it is an Unitarians which does not simply question the trinity of the Godhead or the divinity question the trinity of the Godnead or the divinity of Christ, but seems to embrace within its folds people of varying beliefs. There is Bah'al, the so-called world faith, and there are people who believe in reincarmation. The only thing all these penere in reincarnation. The only thing all these people have in common is a faith of some kind. Perhaps, it is this factor which has made respectable a position which was regarded with scorn when the majority of those taking it were agnostics or atheists.

Those who support the present program of Those who support the present program or religious education argue that the vast majority of students attending public school are the children of Protestant parents and that the majority, no less than the minority, has rights. While some no less than the minority, has rights. While some of them may have serious objections to the brand of Protestantism taught—and in practice this apnears to vary greatly depending on the personal pears to vary greatly depending on the personal religious convictions of the teacher—they would be more likely to support a reform of the system than

This is no compulsory religious education— for instance, the child's parents can ask that the child be excused. The minority elaments object that this sets the child apart from his fellow students and invites religious prejudice and dis-

A count is decades ago a valid retort would have been that, if one of the duties of the school was to train a child for adult life, the sooner he

consists of the first of the consists of the school consists of the first of the consists of the first of the a brand of religion which does not fit, in all particulars, with their own personal faith must, particulars, with their own personal ratio must, from time to time, take steps to offset the instruction given in the schools. Once articles of faith are questioned, a child may learn to doubt even more easily than he may be taught

#### DOUBLE TROUBLE

Warsaw, rich in humorous stories, is hearing this one repeated at cafes these days: "For an ambitious Communist what is the magic combination to get ahead in politica?"
"He must be able to derour the Russian com with Chinese chopsticies."
(Vienna Arbeiterzeitung).

#### Letter To The Editor

SSIA READY TO CHALLENGE NHL CLUBS"

That is the opinion of Jack Riley, an old Comwall-time buddy of ours, who conclude the 1960 United its Olympica hockey entry to victory.

Jack burped blak d'haisen after a touring Ramsian ant consequed of second-rise legatures as the Red-served of the Command of the Second of the Command of the transfer of the Command of the Command of the Command that the Command of the Second of the Command of the Comman

"They're way ahood of ua," Mr. Riley is quoted naying, "and they'll continue to pick up momen-. They're fast approaching NHL cathere and sty meen you'll see Russia challenging Canada for top spot."

I think Mr. Riley knows better than that. I believe he said those things more to cover the weakness of Yankee Nationals than to laud a Russian upsurgence.

Eller and Som Alexanders, a fine chap, is rood secure to play in the National Hocket Learne. I of "Alex. Treegy and Selly", three of the Runius recense during that European Junket—and watched seen play on more than one occasion. The main sees, of overso, was against the McCarlander.

Where is no doubt about it, the Russians are develop-good bookey players? Why shouldn't they." The Bling "Smouldes" from Canada taught them prac-p all they know. They picked up post-graduate should include the property of the property of the should be provided up to the pro-

She so hong upo the Roston Bruins brought over this Advances (so relation to Ingy of the same name). I see that the second section is the same name, of a topout in Neutronal Hooting League company. Gen-manager Kyan Pairtoks cost him home after a few broads classing the Swickish star was greatly handl-red laying to play under NHL rules.

That als' the way this side of the berder, pod-her. The "annelous" and pros mix like wedths and tomate price. In fact it you can find an "annelous" as raised by American college standards this side of the line, you'll be eligible for a Pulitzer prize.

Besides, in my opinion, if a topflight European squad, , say the Montreal Canadiens, with no holds burred, would look like that sea-battle scene from Ben Hur,

And A haven't changed my opinion that the Kil-chener Ijulchmen, spared that "outside interference" and playing on a night when they were up, would have won the Olympics at Squaw Valley hast year.

hat statement may cost me some American friends bouls, but it doesn't matter, my lend-lease bill is

#### Loud and Clear

It is obviously unfair to judge any one speech by a single 35-word sentence. Particularly is this so when the speech is such an important one as the inaugural address of a new president of the United States, and doubly so when this speech has been pared to a modest 1,348 words, since brewly is an aimont infailible sign of care-ful preparation.

When all this is said, however, it is almost im-

possible for she average reader to escape the feeling that in a single sentence President John. F. Kennedy cleanly severed any imaginary ties his new administration may have had with that of his predecessor in the realm of disarmament negotiation. He offered the olive branch to Kh-rushchev and clearly stated what he conceived should be the primary objective of all righteous

"Let both sides", said Kennedy, "for the first

"Let noth sides", said Kennedy, "for the lirst time formulate serious and precise proposals for the inspection and control of arms — With the sentence only nicely begun, Kennedy has already publicly disavowed any contentions that previous U.S. submissions regarding disarmament were the best that could have b vanced. He is ready to start anew, and by so wanced. He is ready to start anew, and by ao stating has made it possible for the Soviet Gove-ernment to enter into negotiations and itself pre-sent new proposals without any loss of face. It may be true that it is easier for Kennedy to disarow past U.S. policies, since they were those of his political trials, than it will be for Khrustchev to copy him, since he was also the author of earlier Russian proposals. But this is a hurtle. is a hurdle which Khrushchev can easily sur-mount by simply ignoring it, acting as M, but carefully refraining from stating that, Kennedy had admitted that the U.S. was solely at fault for failure to wake worsers.

had admitted that the U.S. was solely at fault for failure to make progress.

Then, without doing more than draw breath, Kennedy went on to outline in a minimum of words the primary objective for all nations "and bring the absolute power to destroy other na-tions under the absolute control of all nations". In half a sentence is simply stated the world's terrible danger and the only completely satisfactory solution.

actory solution.

Flattudes, platitudes? From another man, erhaps. But listen to Kennedy: "If the beachead of co-operation can be made in the jungles of suspicion, let both sides join in the next

Here is no dreamer painting a rosy picture of an easy road to universal prosperity and tranquility.

Instead he spoke of "a long twilight struggle seems to be a man realistic enough to accept the truth that such a struggle is inevitable, but that this inevitability should not be regarded as a bar against the establishment of certain rules by which to conduct it. Whether the world will become predominantly Communist or democratic is not a question which it likely to be definitely settled in Kennedy's term of office at the White House — perhaps not even in his lifetime — but what may very well be decided in the next four years is whether there is to be any world worthy of the name to be either Com-

munist or democratic.

Kennedy was, of course, wrong when he said
"I do not believe that any of us would exchange places with any people or any other generation".

Many would gladly do so — because of misconceptions or lassitude. But what a happy warrior is this who welcomes the struggle, recognizing that it is not a sign of decay but the very lifeblood of progress.
"Let us begin anew -

If performance matches exhortations, there may be a day when some of these words will be as famous as "we hold these truths to be selfbe as ramous as "we note these status to be sen-evident" or "government of the people, by the people and for the people", or "we have nothing to fear but fear itself" in the history of his

#### This Is a Police Force?

Last week Patrice Lumumba, ex-prime min-ister of the Congo, was flown to Elizabethville in Katanga province of the Congo and there turned over, for safe keeping, to the government of his arch foe, Provincial President Moise Tahombe. On arrival at the airport, Lumumba and two companions were trussed with ropes, clubbed with rifle butts and kicked!

Con arrival at the airport, Lommuna and two companions were trusted with ropes, clubbed with rife butts and kicked?

The was alcheming, "said a Swede soldler, serving in the UN force.

But the UN force and the control behavior and two force and the control behavior and t

WHAT'S THE MYSTERY O'CONNOR'S JEWEL BOX SEE WEDNESDAY'S

# BULLETIN:

# Shell discloses the nine ingredients in today's Super Shell - and the remarkable things they do to give your car top performance

Super Shell, with 9 ingredients, is now in Belleville. Today's formula contains a new aviation grade of TCP. Read how this improved version of Shell's world-patented additive increases mileage, releases power, and helps your car give top performance

TIODAY, every Shell dealer in this area has remarkable Super Shell

in his pumps.

A notice in each Shell service sta tion promises that this gasoline will give your car top performance. Shell's scientists want you to know why they can make this promise.

Ingredient #1 is TCP for power, mileage and longer plug-life

Super Shell now contains an even better version of this famous additive. It was originally developed for use in

aviation gasoline.

TCP\* additive can give your can

up to 15 per cent more power; 17k extra miles per tankful; and make your plugs last twice as long.
New TCP does this by neutralizing the harmful effects of engine deposits.
It trues them from closures when here It stops them from glowing when hot a major cause of power loss.

It also stops them from diverting yo spark — a major cause of "missing

Ingredient #2 is "cat-

cracked" gasoline for power

This is petroleum that has actually cracked under 1000-degree heat and

catalytic action. Its heavier molecules have been shattered into much lighter, livelier ones.

The result is a high-octane ingredient that makes your engine purr with power the moment you put your foot down.

NOTE: "Cat-cracking" refers to the use of a catalyst — a substance that has the mysterious ability to alter molecules without changing itself.

#### Ingredient #3 contains heavy alkanes - for both power and economy at all speeds

Shell scientists will tell you that gaso

That's their unflattering description of a "touchy" gasoline that performs perfectly well when you're driving slowly, but causes knock and loss of power when you speed up.

 So they put an ingredient into Super Shell's formula that is prized for its insensitivity. \*\* \$

This ingredient is rich in heavy alkanes - hydrocarbons that keep octane ratings high enough to give you plenty of knock-free power at all speeds, NOTE: Heavy alkanes also help to lower your fuel consumption. Your engine can use them up slowly — and still give you all the por ver you need.

#### Ingredient #4 is anti-knock mix for extra resistance to

You might think that two high-octane ingredients are enough to assure knock-free performance. But Shell's scientists have ears like musicians.

They insist on adding a special ock mix. A mix, so effec tive, one teaspoon per gallon can boost anti-knock rating by seven

This mix has the tricky job of regu-lating combustion so that Super Shell gives each piston a firm, even push rather than a sharp blow which would cause a knock:

#### Ingredient #5 is butane for quick starts on cold mornings

By itself, butane is so volatile that it will actually boil at temperatures low enough to freeze water. In Super Shell, it helps your engine fire in seconds.

Think what this means on cold days. Your battery is relieved of strain - and so is your patience.

NOTE: Super Shell is primed with butane all year round. In winter, Shell scientists simply increase the quick-

#### Ingredient #6 is a mixture of entanes for fast warm-ups on cold days

Pentanes are made by tearing gasoline apart, much as you split logs into kindling to start a log fire.

In this case, the "logs" are petr leum's heavier hydrocarbons. A special process transforms their, molecules from slow-burning "logs" to quick-firing "kindling". NET RESULT: Fast warm-up and top performance in a hurry.

#### Ingredient #7 is an "antiicer" to stop stalling due to

Super Shell's formula is adjusted up so eight times a year for your area to beat the weather. Whenever the temperature is likely to be less than forty-five degrees, an anti-ice ingredient

Why add an anti-icer at forty-five degrees? Because, even then, frost can form in your carburetor just as it does in your refrigerator. It can choke

#### Ingredient #8 is a special gum preventive to keep the fuel system clean

Even the purest gasoline can form gum when stored. This can clog carburetors, fuel lines, and pumps. Bus, with Super Shell, you needn't worry. A special gum preventive does the

It acts like a policeman controllin a mob. Keeps an eye on any unstable elements — stops about from elotting and forming gers. Super Shell makes ed up engines a thing of the

#### Ingredient #9 is Platformate for extra energy, more mileago

It takes one million dollars' worth of platinum catalyst for Shell to produce its Platformate. But fortunately for you and for us, this precious stuff can be used over and over again.

The platinum process, which gives Platformate its odd name, re-forms petroleum into super-energy components — such as be

iene.
These three alone release 7 per cent more useful energy per gallon than the best 100-octane aviation

But make no mistake. This is not untamed energy. Far from it. The super-energy of Platformate is harnessed by the eight other ingredients in Super Shell, where it behaves so well you scarcely know it's there. That is until you note your extra mileage. After that, there is no doubt.

#### Test Super Shell for yourself

Try Super Shell next time you fill up. You'll soon feel and hear a difference in the way your engine runs.
That difference is top perfore

Need New Hospital Policy Dr. Douglas Horne has told the Rotary Club that Belleville's hospital facilities are "totally

If this description of the current situation in any way inaccurate, we shall leave it to nose better informed about available hospital ecommodation and current needs to enter any demurrer they believe necessary. However we suggest that residents generally ought to take a long, hard look at the contention that local sources will have to provide 80 per cent of the cost of the 611-bed hospital Dr. Horne says will

be required by 1986.

It would be easy, of course, to compare this picture of the 1986 hospital with the first local hospital, opened in 1886, and to wonder whether, even in a hundred years, there was any neces-sity for the number of beds increasing almost 80-fold and the number of employees soaring from the three nurses employed in 1886 to the 2,000 workers Dr. Horne says will be needed when the hospital celebrates its centennial.

when the hospital celebrates its centennial. This comparison, though, would ignore great changes, both in the advances made in medicine and in the social structure. Not only can more, much more, be done today to cure the slick than could be attempted in 1886, but paradoxically enough the average home is less able to cope with sickness today than it was a century ago, when family circles were larger and helping hands more numerous.

It is not this point which arouses our mis-givings, but rather the suggestion that, in this day and age, hospitals such as that in Belleville romain as much a local responsibility as they did a century ago.

recent years might help to clarify the situation.

A couple of decades ago, when the need for increased hospital accommodation first became pressing in many parts of Ontario, the provincial government encouraged the opening of hospitals mail centres. Some of these hospitals were established in large old homes, which were restablished in large old homes, which were results amall in size. The smaller communities, in general, favored this policy. It not only kept patients near their families, but also provided work in these smaller centres.

In later years, however, the fallacles inherent in this policy became increasingly evident. It was obvious that the larger hospitals, possessing

ing specialized staff and equipment, could offer greatly improved service in most cases of illness. Belleville has one of these larger hospitals. It serves not merely this immediate area, but a very large district.

very large district.

With the coming of hospital insurance, the provincial and federal governments must now saurely share in the responsibility for providing the hospital care within is promised under the scheme they have sponsored. The rates et under this plan are presumably sufficient to meet the costs of efficient operation of a hospital, and Dr. Horne has said that hospital authorn has said that hospital suthorn has said that hospital suthorn. ities put 80 per cent bed occupancy as the safe limit. Bed occupancy at the hospital here was given by Dr. Horne as 104 per cent. The layman would suppose that this high bed occupancy would produce a surplus, since the cost of operation would hardly be swelled by the same extent as the revenue. But if no such surplus results, the responsibility of the province is not elimin-

ated.
Furthermore, is a hospital with 2,000 employees not too large an enterprise to be directed by a volunteer board of governors, giving of their time without recompense?
These three points, firstly the area served by the hospital, secondly the role of the provincial and teleral governments in hospital insur-call and teleral governments in hospital insur-

cial and federal governments in hospital insur-ance and thirdly the size of the proposed es-tablishment, all seem to us to suggest that the '1888 method of local responsibility for the provision of hospital services might reasonably be changed by the time 1986 rolls around. To have the provision of hospital scalities a charge on real estate, or to make it dependent on charity, hardly seems fitting in an age which talket of "world services."

talks of "social security."

### SIGNS OF AGE,

For a long time there have been several recognized signs of aging. One is when you begin to notice how young the policemen seem to be. Another is forgetfulness of names and faces. Increasing irritability, fussiness over small matters, waning ability to concentrate are

Now a friend has discovered from personal experience a new sign. He says you are really getting older when a man older than yourself calls you "Sir.", (The Printed Word.)

### RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

The big fellow with the halding pate and shoulders like a prefermional wrestler would come barring down the ice. He skaled on a straight line from his de-fence position is a spot near the enemy real. Some times he passed the puck. Some times he shot.

Some times he scored. More often he didn't. When did a boyish smile would wrinkle his face. He dodged e outstretched hands of mates wanting to pat him in

He was a sixty-minute man. An hour of tense tion, playing, directing, driving his team. He loved win. But he was generous in defeat.

Who died on Monday. And his passing brought a deep personal loss. For many years he was one of a group of close friends in the village he called home.

He was one of Wellington's most stalwart citizens. He is a loving husband and father. He brought up his ally along the right paths of life. He gave two sons his country's service. Today they mourn the dad o was as much a pal as a father.

I shall never forget Ralph MacDonald. During our many years of friendship I never knew him to utier a deregatory word against a fellow man. He was a min of the people, and a people's man.

But he never used his weight to the physical disad-niage of an athletic opponent. Off the gridiron and ice was gentle, not-spoken. On them he would buttle the last disch for his club. He was not quarrel-me nor dicteriorial. He claimed his rights and fought

We speachended his village club against the tis and MecDennide of Millerd; the Churches and so, Mynder, Rockers, Welch's, Haddons, Hadgins others of Fictors; the Thompsons of Biomilield and "Substitute" from Democratville.

And the big, good-natured defenceman never rumbled when a blirsard obliterated the playing sur-toe. There was something to be done and he led the way; the first one to arm himself with a shovel.

He was intensely loyal to his club and to his teammates. There were times when he should have been put to bed wiffs a bad cold or the "fig." But he always

In the community facet of his life, modern parlance would classify Ralph MacDonald as a "solid cities..." We was immensely proud of the district in which he was born and the village where he lived the greater part of his life.

For many years Ralph MacDonald was a ir and devoted servant of the vilinge public utilities Storms and high winds were his greated enemies to Both he took thair buffels with a smile, never losin his temper, hard retting the "tools" and going out do repair work no matter the hour.

Personally this column extends its deepest sym-thy to Flora MacDonald, a loving and devoted wife a mother and to "Jimmy", Vernon and May,

Rest well, old friend.

### The Local YMCA Looks Ahead

This week is designated as YMCA Week in Selleville and throughout the rest of North America. It is a time when the doors of the local "Y" are open to all in the community to drop in and see just what is going on in one of the most active centres in their community. Actually this policy is not something which is especially reserved for one week a year for we have found that Belleville's YMCA has its doors open to all ages, all people, all groups all the

One of the remarkable things about the local, "Y" is that it reans so many different things to almost as many different people. The list of its activities is an accurate reflection of the interests of the people, both young and old, of this community. Wherever and whenever some group expresses the desire to engage in group expresses the desire to engage in some worthwhile activity by which either the spirit, the mind, the body or all will benefit, the staff of the local "Y" has always been willing and eager to provide facilities, assistance or leadership.

Although designated as a Young Men s Christian Association the local "Y" also conducts a very full program of activities for the girls and a very full program of activities for the girts and young women of the community, and employs a sull-time women's activities director for this work. Typical of the original-thinking of the "I" staff is the Ladies' Day Out program which alives housewess and mothers to literally take a cay off from their normal routine, with their califican-wared for at the "I" while they attend lociume, demonstrations, gym periods and so forth.

It is evident that the YMCA\_ist Belleville userving its purpose as an organisation declicated searching its purpose as an organisation declicated and aphitually. Each years for some sinen now there has been a steadily increasing number of members and local people making use of its facilities. The present building, built to meet its facilities. The present building, built to meet the needs of the community some 50 years ago, is erowided to the point that some "2" groups cause accommodation is not available in the quate accommodation is not available in the Campbell Street building.

The growth of the "Y" in providing service and facilities to the youth and citizens of this community cannot be disputed. During the past 10 years activity has more than doubled; in attendance it has almost tripled. In 1950 there were 1.044 members with an annual attendance of 32,927. In 1960 this has grown to 2,387 members with an annual attendance of 89,675.

Besides its members the "Y" facilities have served various outside groups also. In 1950 42 outside organizations held a total of 184 sessions with a total attendance of 3,764. Although the number of groups had decreased to 39 by 1960 the sessions rose to 257 and the attendance to 5400

All of this activity is being carried on in a building designed and built in 1911 to serve a community of approximately 8,000 people. Bellevilles population has more than tripled since than and there is a greater number of young people to be served. Needless to say the present building was inadequate to meet the community's needs a few years back.

If we take the available figures and project them 10 years into the future it would appear that by 1370 there should be between 5,500 and 3,750 members with an attendance figure somewhere between 139,000 and 169,000. Needless to jay there will have to be facilities adequate to meet this demand.

This matter of providing space and accommodation adequate to meet the current needs and future demands of the community has presented a problem of no small proportion to the group of citizens whose responsibility it is to ensure that the local "Y" is serving the interests ensure that the local "V" is serving the interests of the community. Towards this end they have decided that the time is right to provide that area with a new YMCA building and will shortly be taking the necessary steps towards ratising the required funds through public subscription. The successful completion of this difficult project will contribute greatly towards the better serving of the youth, and citizens of this community.

Meanwhile, this is YMCA week and, as mentioned previously, the doors of the local "Y" are open every evening to visitors. There could be no better time than now for one to find out about the activities of the Belleville YMCA first about the activities of the Belleville YMCA first hand. We dare say that many might well be surprised to find out just how much worthwhile activity the local "" engages in for the benefit of the individuals in this community.

### This Much We Pledge

Following is the text of resident Kannedy's many-

My Fellow-Citizens:
We observe today not a victory of party but a relebration
of freedom — symbolizing an
end as well as a beginning —
include renewal as wall as of precion — symbolising and of several a swell as a benchmag and a swell as a swel

with systems. For only whom closed in the system of the condition we are contained by the c

problems units us instead belaboring the problems to

belatoring divide us.

Let both sides, for the first time, formulate serious and precise processis for the inspection and control of arms—and bring the absolute power to destroy other nations under

the absolute control of all ma-che bill index plan by the control of the control of the tree. The plan below the worker of active bissed of the break plane of the break plane of the control of the con

the weak secure and the peace reserved forever.

All this will not be finished in the first one hundred days.
Nor will it be finished in the first one thousand days, nor in the life of this administra-tion, nor even perhaps in our lifetime on this planet. But let

iempered by war, distollaries by the control of the process of the

### Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEG. H. CARVER, Sports Editor With the weather-man spewing snow all over the and Jack Frost digging up his lowest degrees, it silly to talk or even think about birds, bees, bears assekall.

The bears, birds and bees won't be around to a while, but the baseball bulbs are stirr beginning to show signs of life.

And from what I can gather between snowstorms of sub-zero atmospheres, the chances of the BBC's blos-ning into flower are exceedingly bright.

Last fall after the Belleville Kenmors deflated a proud Hamilton 1859 championship squad, and won the first Quinte city all-ontario junior "A" major championship, menters Ken Soden and Vie Morris decided is do something about the 1861 basebail pic-

"Effing the rough, dough OBA playdown (rail, they encountered some topilisht squads. Peterbor-ough they said had a fine sam, one which had ead out a fine young diamond error from Onhaws. Con-versations and subsequent correspondence reverse treation and subsequent correspondence reverse Ostario Baseball Leapte.

With a number of players on these district junior quads reaching the age limit this year, it was thought hat the proposed league could rule that players up to 3 would be eligible.

This because it was felt such a ruling would not interfers with senior city baseball logues, such as op-ate in cities like Peterborough and Kingston. There were varying opinions on this point.

At that time it was suggested that the "nex league" be composed of squads from Belleville, Peter-borough, Oshawa, Kingston and possibly a fifth team

This met with some opposition from Peterborough and Oshawa clubs, who felt that Klugston would be beyond their transportation facilities. However, Kingslow was not approached on the subject. Bestless it has a Junito backball is given of its own, and quite likely would not estertial the idea of an entry in an Estern Ositatio circuit.

However, more recent happenings point to the pos-sibility of the Kenmors playing in a different Eastern

Manager Ken Soden recently received an invi-tation to attend a meeting of the Lakeshore Interme-diate Baseball League slated for the Einwood Hotel, Newcasile, on Thursday of this week.

Last year this circuit was comprised of Oshawa, Eowmanville-Orono Combines, Port Hope, Cobourg juv-eniles and Peterborough juniors.

Two of these clubs were of intermediate calibre. The Fort Hope club, according to OBA vice-prealdent Jack Carson was one of the best clubs in its classification in the province.

Mr. Soden did not know what the meeting has been called for. However, it is presumed the request to the Belleville juniors' management to attend is indicative of an invitation to enter.

Closer at illime there is good news. Mr. Soden told that he has contacted the Public Utilities Commission I the city Parks Board with a view to using the slibition Park for baseball this summer.

He said he met with the finest co-operation.
Public Utilities officials stated that the lights would
be available, with an adjustment of the rates. The
Parks Board also assured him they would assist him
in every way possible.

So the baseball picture at the moment looks promising. The city, I believe, is baseball-hungra and will welcome the return to Belleville of the popu-lar summer sport.

### The Fountain Of Knowledge

Inter Pountain Of Knowledge
John Wintermeyer, leader of Ontarlo's
Liberals, has suggested that compulsory training
be used to prevent students from leaving school
at the age of 16 or any other age if they are
unprepared to earn a living. Aside from the
observation that there are a few who appear
unprepared to earn a living no matter how much education or training they may have re-ceived, the use of compulsory training will not necessarily produce the end Mr. Wintermeyer has in view but II would be a step in the right

has in view-but it would be a step in the right direction with some modification. The purpose of such a scheme would be to ensure that every citid emerging from our school system will have some trade or training which he can put to use in a skilled or semi-skilled vocation if he is not going to continue the education et a higher level than high school. Only 10 per cent of the new jobs available over the past decade were for manual or untrained labor. Ontario's school records reveal that some-thing like two out of every ten students entering idary school actually complete this level of

It should therefore be rather obvious why some of today's unemployed are in this position.
Many must tace up to the fact that they have not prepared themselves for service in a voca-

It is a most point, however, as to whether oranot the 80 per cent who have dropped out of school for some reason or other could have been retained within our educational system to both reamed within our educational system to both their and their fellow students' advantage through a compulsory training program. Many students quit school because they are tired of study and want to acquire some of the material "benefits" which are a mark of our society. They are teiling independent and do not wish to be subjected to the discipline necessary to the oper-ation of an educational institution. These young people would be of no benefit to the life of a Secondary school, and it would be most surres-sonable to expect our teachers to accept the burden of training such individuals. There is little doubt they are capable of Learning some trade. There is, however, considare feeling independent and do not wish to be

achievements.

Ceremonials tend to become most claborate when their manner claborate when their manner claborate when their manner claborate state of the class o rable doubt whether they have the willingness to do so. Then also there is even greater doubt as to whether the working citteens of our province should underwrite the education of such people. We feel that their education should be their responsibility or that of their parents.

If these individuals are incapable of facing up to the fact that they are going to require some vocational ability or trades training in order to support themselves following the termination of their school career, there is no reason for us to be so blind as to underwrite a program designed to help those who refuse to help themselves.

help themselves.

Free education for those who cannot afford to attend higher institutions of learning, but have both the ability and the drive to do so successfully if dinnated assistance were provided, is, on the other hand, most worthy and

deserving of our support. There seems little reason for us to force the There seems little reason for us to force the dropper-sout to the fountain of knowledge when it is obvious they will refuse to drink. It would almost be pardonable to laugest the fascist gimmick of placing such persons into the armed forces for a five-year trades training course administered under conditions where they are made to realise the folly of slatching off from

their duties. As an alternative to this, we might suggest As an alternative to this, we might suggest that vocational training more properly belongs in the shop or industry, as these bodies eventually realize the greatest profit of trained personnel. If this were where the people Mr. Wintermeyer is concerned about learned their trade there would be little cause to worry about them not being trained for a vocation. They would either produce or face the unhappy pros-pect of being out of work.

### How's That Again, Joey?

Charles Templeson, & evangelist, broad-caster and journalist, was under attack in the Newfoundland Legislature. Progressive Conserv-ative leader James J. Greene called Mr. Templeton "an evangelist turned agnostic" and tried to the him around the Liberal Party's neck by saying that he had heard Templeton would be a Liberal candidate at the next feetion. Premier Smallwood immediately defied that Templeton Cannics, but decided he should "aya a passing tribute to him. "I respect him for the courage of his mistaken convictions," he declared, then quickly added, "but he could have hidden the fact that he has become an agnostic "insection for the courage of his mistaken convictions," he of the courage of his convictions and possible of the courage of his convictions and for the courage of his convictions and for his good sense in keeping these convictions secret." "an evangelist turned agnostic" and tried

### Rhodesian Courtesy Drive

In the dark political cleuds gathering on the aky of South-inn Rhodesia at present one of the silver linings is a "cour-cey campaign", the min aim of which is to demand better reatment for African custom-res in Salishury's shops and

anks.
The campaign was started in eptember by two women who me to Salisbury six years on, one from Harrow, the other from Birminsham. They are now formed a committee 10 volunteer workers which anonymous and non-political.

Thore has been a nationable change in the treatment of sur-timers, particularly African, tomers, because it was a survey of the al.

At present bearded or prosessional Africans are often caled "boys" by young while
hop assistants and all Afrians have to wait in a queue
nitil every European who
omes after them has been ser-

by withthan age."
Of late African women have been co-opted on to the committee so that they can do similar work in their communtentment of an African cus-lomer.

Within five weeks of the launching of the campairs the committee had registered 32.— Agrit of 2200 from sympa-thelic business men was used to finance advertisement according to the control of the con-condition of the compaint of the resumment courtery creates according the control of the resemblers of the campaign were urged to address every person irrespective of color in manner betting this size and

**Happiness** 

Work, Love By SYDNEY J. HARRIS Purely Personal Prejudices: The ordinary man would like to attonish the world; the ex-traordinary man is continual-ly attonished by the world— and his renewing sense of won-der is what makes him capable of great discoveries—and achievements.

Requires

Of the African women have-been co-spoted on the com-mittee are that they can do sin-lities.

Saliboury men, particularly town once a seek, have fell town once the seek of the seek of the seek of the seek of the seek hard of the seek of the seek of the hard of the seek of the seek of the hard of the seek of the seek of the hard of the seek of the seek of the hard of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the seek of the hard of the seek of the seek of the seek of the seek of the hard of the seek of knock up against a wounded finger. We can admire a person only until he disappoints us, but we love a person through many disappointments; this is why a marriage based on admiration is rarely strong enough to nur-turely strong enough to nur-

vive the wear and tear of life together.

The worst form of namedrop-ping is the frequent mention of God by persons who you know have barely a nodding acquaint-ance with Him.

### Siesta Maý Lick Franco

Francisco Franco, strong man of Spain, has decided that the afternoon slests has got-to go. A government commission has found that the two and one-holf to three hour slests is

one-nast to more nour usual as controded.

Most Spanish workers just waste the time and don't even get a nep, the commission reported. What's worse, as a result of the late finish of the working day, they get to bed too late. Some never get nough sleep. National productivity suffers.
Franco has is cided to change Franco has is cided to change

more personal properties of a subject of the subjec

Beef for your Baby!

Gerber

Once you taste Gerber Strained Beef for yourself you'll know that here is the smoothest texture this side of a baby's smile. Not only will you notice the lessions, moist texture, but the true-mest flavor as well. Because Gerber Beef is 100% pure meat, with just enough broth to smooth the texture and bring out "the good beef flavor."

Only associated, government-inspected Canadian beef is used. Careful-processing removed most of the fat for easy digettibility. Like all Gerber Baby Foods, it's prepared by specialists who really know how to preserve the utmost in flavor, quality and food values. We invite you to taste Gerber Strained Beef, soon. And don't forget to try Gerber Veal or Chicken, You'll find them just as superior.

Babies are our business . . . our only business!

## Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor Can the Trail Smoke Enters win the world bockey tournament stated for March in the shadow of the mighty Swiss Alpe?

From the west coast come conflicting opinions. There ms to be little interest in the tournament this far east. From the Smokies camp in the British Columbia smeller fown econes reports that the favorile hockey sons, bolstered by outside help are confident to the point of cockiness.

Other parts of the coastal scenery, those cent which formed part of the league in which the Smob played, are less optimistic. In fact some of the doubt if the Smokles can finish in the "money."

The Smoke Esters playing coach, 31-year-old Bobble mm possibly well known in west coast puck circles, a head-scrabching name in the east, has more connect than a hungry fox standing over a trapped rabbit.

scene case a numery now standing over a trapped rabble. In fact the pentleman in question above a dash of cockiness. Says he, "Western Canadian tosum have merry lost as world our bournament. We won't break that record this year. We're a hunary club with lots of dealre. We know the competition will be the best over. But we'll be ready."

And we thought a hockey amateur had joined the bird in the Extinction League.

Commenting on games played against an interme-mediate club the Kootenay Rams which split a pair with the Smoldes, Rams oeach Jim Middleton said "The Smo-kles seemed to lack fire and drive. In the first period they looked like champions but in the second we had them

Kelowaa Facktra players after meeting the Smo-kieg said "What we asw out there Friday would not win a tills for Canada. Ther are a third or for place of the first p

However, we understand the Smokles have bolstered their club since these remarks were made. They have obtained Darrel Sly an eastern defenceman, who was a little above average in his senior "A" days around these

Sty incidentally since joining the Smokies is quoted as saying "There isn't a team in Eastern Canasitat can state with this club and there im't an easte team that can beat Trail without first strengthening

Confidence and the will-to-win are fine traits in any sports organization, but like sleeping pills they can be carried in overflower.

We in the east and the pessimists in the west should of pass judgment on the Smoke Eaters until they we shown what they can do in international compe-

And by the same token Kromm and Compa should not go around house-topping their capabili-until they have found "what they are up against."

They will find playing in European arenas and under international rules something quite different to the Canadian set-up. They will be facing crowds and teams that have a definite "Beat the Canadians" complex.

A tough exhibition schedule should ready them for the big tournament in Lausanne. They will learn a lot about the Swiss Swedes, Russ and Czechs in these pre-liminary title.

Regardless of whether they're Smoke Eaters from Trail, Herring Chokers from Hallfax or Salmon Slug-sers from Vancouver, they're Canadians and as such are representing this country in tough world compe-tition.

So if they have any faults let's forget 'em and get behind the club that I'm sure will do its damndest to bring back the world hockey bacon.

# DO IT NOW - WITH A **SMALL BUSINESS**

Small business proprietors in the manufacturing, wholesale and retail trades and service businesses, can now obtain intermediate and short term credit for improvement and modernization of equipment and premises. Businesses with, a gross annual income not exceeding \$250,000 are eligible. The loans, applicable to both fixed and moveable equipment as well as the improvement of premises, are available in amounts up to \$25,000 for

Businessmen should have their projects fully planned and estimated before approaching their bank for these government-sponsored small business loans, Business associations can provide advice and assistance, especially in the

Winter is the very best time to carry out improvements to equipment and premises when men and materials are available.

You are more likely to get a faster and better job.

For Full Details on the Small Business Loans Regulations, see your Bank Manager.

Oh What a Tangled Web We Weave When first we practise to deceive—we soon are dozens of ways of doing the trick.

seam dozens of ways or doing the trice.

Apparently not having learned the futility of curing symptoms, rather than the disease, Members of Parliament passed a law a few years ago against red-striped paper being used to wrap fat becon so that it pooked lean.

fat becomes that it looked lean.

And we, poor dished consumers, applauded.

So bacon was soon being markeded in a new package, which ladd it out, row on row, with the top fraction of each risher plainly exposed to the customer's eye for his inspection and judgment.

A magnificent reform, a noble example of

So become was soon being marketed in a new package, which laid it out, row on row, with the top fraction of each place plainty exposed to the customer's eye for his inspection and judgment.

A magnificent reform, a noble example of the power of Parliament?

Don't be still! Stundy morning, when we will be the bacon out of the refrigerator, there were think the customer in the power of Parliament?

Don't be still! Stundy morning, when we will the bacon out of the refrigerator, there were those lucions fooling after create the power of Parliament?

The lean on top' was all the lean there was refrired that the power of the product in the product in the refrigerator was Penling of the first rather, exposed to full view for the first time. The lean on top' was all the lean there was Penling of the first rather, smalled with Int.

Nobody but a numbekul should buy more after a note a that Stundy's breakfast frying pan. But this numbekul, and thousands like him, will be back at the same old store next pay-day, hoping for better luck in this guessing game. It is just too much trouble to wait around while a butcher alices off a slab which reveal accustly what proportion of the product is not any of the product in the poultage of public attention. The construction of an officer's residence at the St. Hutch that the customer; it is much, much worse that the customer ham't the intelligence or energy to resent this deception and, even more himportant, do something about this researched that the customer ham't the intelligence or energy to resent this deception and, even more himportant, do something about this researched that the specified for public attention. The construction of an officer's residence at the St. Hutch that specified to public attention. The construction of an officer's residence at the St. Hutch that specified to public attention. The construction of an officer's residence of the state of the public attention of an officer's residence of the state of the public attention of an officer's residence of the pub is an item for \$9,050 for landscaping, that is the provision of a lawn with trees and shrubs on a piece of flat land.

Then there is another factor to raise eyebrows. That is the employment of regular RCAF personnel in the building of this house An Air Force spokesman has cried foul against An Air Force spokesman has cried for adding the wages of these men onto the cost of the house when their participation was but "incidental to their regular jobs." We are not sure just what this means; that is, was overtime paid or not?

Then also there is the question why there was the contract the country that they was the contract the country that they are of the contract that country there is the contract that one of the contract that country the contract that contract the

was not a contract let out so that a few of the local unemployed could benefit from the \$80,000 of the public's money spent.

ne thing can be said for the RCAF, however, it has yet to be caught with horses on the payroll unless, of course, there is a Pegasus or two which have yet to be discovered.

### Breadwinners First

Deputy Reeve Rev. Avid Rowland of York Township believes that married women should not be given township jobs unless they are the breadwinner.

We have considerable sympathy for this view, providing it is modified to require that the same hold true for married men—there are

some who do not support their families.

A union of unemployed at Oahawa has asked that General Motors cut down on overtime and instead hire men now without jobs. An official of the Auto Workers Union has backed this

request At Christmas time there were dozens of un-employed here, yet many high school students

employed here, yet many night school students; missed classes to work in stores.

If no vacant job were given to a member of a family which already had an adequate income, if no overtime was worked where there were fobless persons qualified to do the work required and if adults were given preference over adolescents wherever practical, we wonder whether overcents wherever practical, we wonder whether over

cents wherever practical, we wonder whether our unemployment victure might not appear consid-

erably briohter.
These are the kind of policies which many dislike on principle. In principle, with this dislike we are in full accord, but in practice some sacrifice of principles is sometimes necessary.
We think this is true today.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

The place looked like a TV location set for Gun-amoke. Some of the boys were six-guns strapped to their waists. Others had automatics.

They may not be too fast on the "draw" but don't stand front of them when they get that iron out and "lay

It was a big night for the Quinte Marksmen and the Northern Electric-Belleville hand gun clubs. They form the active part of the Quinte Handgun League. Picton and Treaton clubs are members but have with-drawn from competitive shooting until they acquire

Nick Stefan, popular Labatt's Brewery district rep-sentative, gave the boys a colorful incentive. He seemed them with their first championship trophy, thing of beauty. The first recipient was Doug Mac-maid of the champion Quinte Marksmen.

Quinis president Gordon MaGoe heads a club of nembers who have been shooting the outdoor and indoor ranges from 1935. Dave Duffus beads the NJL Belleville club which includes four separate teams, from which the representative club is selected.

There are two ladies on the clubs. Mrs. Joan Reid Lorna Hinchey, who shoots for N.E. against Poppa t of Quinte and occasionally beats the old man.

The Markemen wan the new Labati frophy, taking we matches out of six on the Reddenville outdoor anges last fall. Competition calls for shooting in the me, rapid and slow classifications at 25 and 50 yards agos. In the writer the boys lake over the ranges the armouries readying 18t the fall champlenships.

The clubs operate under the rules and regulations of Octario Revolver Association. If they feel their av-ges warrand, they will take part in the Ontario cham-nestings, and who knows some gun-totul' Billy the Kid in the city might walk off with a Dominion title in soc too distant future.

There is no fooling. "Quick draws and fanning" articly to the radio and television gunsilingers. The boys re proud of the fact that in some three years of organizer competition nothing of an untoward nature has occurred

Most of the members are fine shot. While I was talking shop to one of them another "popped" off ten quick rounds and later showed me the target. Had he simed at my hat I would have had a hole in my head some three inches in diameter.

Look around and you will see some expensive wea-pons. As was noted some favor the single shot re-vibrer type, nont favor the automatic pistols. Seems that the pistol is better adapted to rapid fire shooting. But don't uncere sit the revelover isters. Take a look at their averages. They're good.

And they tell me that some of these automatic pistols t in the neighborhood of \$120. That's a heliuva lot of

The Quinte Marksmen has a lot of veterans on its roster, who have been shootling as team since 1934. But they're not having it easy. The N.E. shots chase them all the way down to the wire, keeping them on their toes and giving them no chance to let down.

It is a fine sport and potential "shots" of the city can stact Gordon MaGee or Jack Hinchey. Northern El-ric teams, naturally, are confined to company personnel.

# Kennedy Sets The Mood

That is how President John F. Kennedy, at

Coult how President John P. Kensedy, at his first pare conference show his hanguration, described the ions of rocent conversations between the U.S. ambassador in Moscow, Levillyn Thompson, and Nikria Khrushchev.

"This can word, better than any other, describes the tone of President Kennedy's press conference references to Russia, and indeed to Cube and China, too.

In this he matched performance to promise. In his hanagural address he had said: "Civility is not a sligh of weakness." Certaportiancy, in the control of the cont suggest, the biggest news of the conference—far outweighing in importance even the announce-ment of Russia's release of two survivors of an

ment of Russias release of two survivois of an American RB-7 plane shot down July 1, 1960. There were several striking examples of Kennedy's insistence on civility. Confronted by a question couched in the too-familiar language of derision and innuendo, with reference to Uhrushchev's "current friendly kiek" or some polivalent term, Kennedy adrolly answered: WZ/hout accepting the premise, I can say... d that was that

asked whether the U.S. was considand ny food to Communist China, where ne has been reported, he stated that there sen no indication, official or unofficial.

This seek report, in states that there is no indication, official or unofficial or uno

will thave to receive the full co-operation of Khrushchev and the Russians. To doubt whether this will be forthcoming is to be realistic, rather this will be forthcoming is to be realistic, rather than pessimistic, on the basis of past perform-ances. But Kennedy evidently believes that civility, like charity, should begin at home. If he is to have a right to expect it of the Rus-sians, he must accord it to them, and this not only from himself, which is relatively simple; but at least on some scale from the American

bit at least on some scale from the amount public in general and an agromous reversal of the tide of U.S. public opinion. If there is any way for Kennedy to achieve this, surely the televised press conference is the most promising device. For this reason, then, we find our selver rejecting our formerly earlier expressed view, in an editorial on January 3, that his decision to permit live TV coverage of these glateriags was "highly questionable." Our conversion comes in spile of the fact that Kennedy's first televised press conference was only moments dot when the made us look like a true prophet, as eventh son of a seventh son. He produced a manner of monumental proportions a seventh son of a seventh son. He produced a one-word "fluif" of monumental proportions Explaining that the U.S. was seeking postponement of the resumption of talks on a nuclear test ban, he said he hoped that these "tests" would resume in March. The whole context of his remarks, the whole tone of his answers to later questions, provided almost positive proof later questions, provided almost positive proof that he meant to say "falks," not "testa." "There was, however, no correction of this slip, then or later, at least on the edited CBC version

Def the conference which we saw,
Such dangers, though, can well be risked
if Kennedy can use these conferences for the
achievement of a different climate of public
opinion, almost essential if realistic attempts to
find acceptable compromises on issues at dispute between East and West are not to be regarded as despicable "appeasement."

despicable "appeasement."

We were wrong, too, in that editorial on Jan. 3, when we suggested that "It will be impossible for Kenniedy to answer fully or accurately without damage to U.S. interests." His remarkable display of mental agility in this bis first, conference convinced us that, while bis arrangement and the summer was the same of his answers may not be full, they will be adequate if attempted at all; while his answers will not always be devoid of inaccuracies, they will not worfully distort the truth; and, above all, they will never endanger the true best interests of the U.S. or the free world.

C. E. W. Hiuser, Manager Do It Now!

During the winter months, unhurried tradesmen can do better jobs-and often far more economically. Another good reason for doing it now is that Home Improvement Loans can be financed now under the National Housing Act, up to \$4,000, with up to ten years to repay. The Act also covers rental dwellings and apartment houses. Special Farm Improvement Loans are also available, up to \$7,500, with up to ten years to repay, @ Make a point to see your local bank and Investigate Home and Farm Improvement Loans right away.

# Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor The 1961 Sportscasters and Sports Casters Cele one the other night was the greatest asseult on a the calorie was invented.

Over 1,100 of the entile, sporie greate, leaser Hithis, growth, and Anne Hegyevil left Hitle of the sumptione resent from the "here" fewerre varie" through the "iournedor results" (fillet milgons to the similation, to the speciment freme Alponeutin Log which was brought in on an Huminsted for-black by four sixturat chefs and served with splaing hole

If Ann Boleyn had served this dish to Henry VIIIth she would have lived to a ripe old age instead of haunt-ing castle cloisters with "er 'ead tooked undernoeth her

As Frank Shuster who with Johnny Wayne hit the ceiling with their hilarious ad libbing, said, "Every sport is represented here tonight with the exception of volleyball and parking."

exception of voitrybain and parting.

Ed Sullivan, satebuiled for the chief emore role coulden make it. New York's great showman circle-crusted costs allow feet over Treated for an hear in an alternati which couldn't hand because of weather considered makes when heard by the huge crowd. Warre and Shuster filled in nicely. They keep up a running first of consety that had the migroon manchers in continuous agrees;

Shuster introduced Aveiline Genez, well known ter, as a "representative of the sport of kings, not king Fareak's kind." Wayne told Johnny kinds and American quarterback how to play the form of the play and the play from players.

ik was a distinguished gathering of celebrities. Base-sonk Bill Maseroski, Chuck Dressen and Jess Doyle e west hookey's Toe Blake, Dit Chapper, Paul Thomp-and Dava Keer.

and Dave Nore. Feedball lad Ros Stevenst, Dallace, and the Sha-cessioned Rost Grav. Stree-harted, destinguishment, freeze, Marce Ross, was there. So was Cassales Ulympic and "Queen Anne." Thompson and David Marce was the Class Superior of Cassales State on Marce was the Class Superior Cassales State on Marce State State of Cassales State on Marce State of Cassales State of Cassales State on the Cassales State of Cassales State of Cassales State on Cassales State of Cassales

Quiet, medest Bill Mascruski made the longust speech of his life. He described the thrills of his framous hemore that best the Yankres und mid Marile pulled a honor in that equally famous first-base play. "Every time we held the Yankres under ten russ we heat 'em." he said.

Chuck Dressen differed. He said the Pirater saids the Pirater saids the said the Pirater saids that saids the said the said the said the said that saids bear in of first base to pulled a rock, that's why they call him 'Rocky'." said.

Ron Stewart almost stole the comedy thunder fr Wayne and Shusier. The diminutive Othawa jet-hee halfback, said he had gone to school in Toronto's Riv dale, "and after I was kicked out of there I went Queen's."

There they gave him a pile of rags which proved to be a sweater of 1923, worn by Pep Leadley. Then I went to Ottawa and they didn't like my size. Bill Smith said once when I tripped over a chalk line I looked like a dwarf elimbing a snowbank.

A lot of his old school buildles were doing well. Lou Bruce\_was coaching a ladder weight-lifting team while Con Smythe had given Billy Harris the popoorn conces-don in Maple Lest Gardens.

The real winners of the night were the Ten Timmles and the children they represent. 1861 Timmy, young Kent Sullivan, drew rounds of ap-plause as he was carried into the plush Canadian Room of the Royal York by Whipper Billy Walson.

Pretty Anne Heggveit drew a standing ovation wh was presented with a plaque as Ontario Athlete Year by OSSA president Jim Vipond.

The Ontario Society for Crippled Children fund received a tremendous boost. Receipts from the diner and priavie donations will not the fund some 355,000. During their line "dinner rean" the writers and casters have raised through this medium \$185,341."

A Little Cloud on Economic Horizon Don't look now, but are those 264 NHA mortgages in default at Billot Lake, instead of being just a storm, in an uranium teapot, the forerunner of a possible coming hurricane?

People are unemployed in other places besides Elliot Lake. People in other places besides Riliot Lake have mortgages. It would be sur-prising if there were not at least 264 other mortgages in default in other parts of the country. And this number may grow. "Special circumstances" at Elliot Lake give some excuse for "special consideration." But what about defaulted mortgages elsewhere?

Bank of Canada says that the bank has been showing a set. It is a set of the set of the

A Mugwump Decision

If David S. Howe of Ayimer is scratching his head these days, he has reason, fifty bucket with the second of the second two. The limit is an innuing moose. He short two. The limit is an innuing moose was wounded and he wanted second two. The cut is authering. The court fined him \$100. The court either didn't believe him or else felt that the law did not grovide any leeway for exempting hose who shoot a second mopee from a noble those who shoot as second mopee from a noble those who shoot as second need to vary the court of the law. It ordered \$50 of Mr. How's then the law. It ordered \$50 of Mr. How's then the law. It ordered \$50 as a penalty for a humanilarian set or allowed a \$50 reduction in his original fine by reason of what the Cabinet considers an ingenfout, but uniruthing, explanation. The best the count possibly ofter in clarification would be count possibly ofter in clarification would be counted possibly ofter in clarification would be the sevaluation means that the tion would be a contention that Mr. Howe's fine was reduced \$50 because it did believes that story—but this explanation means that the story—but this explanation means that the Cabinet thinks \$50 is the proper penalty for putting a wounded moses out of its misery, a version which docen't realty get the mugwainp off the fende. "All or Nothing at All" is the Proper theme song for this explanation. proper theme song for this case.

# An Ugly Incident

In Brantford, a 50-year-old man has asked, and received, a month's jail sentence, so that he can keep warm.

The man in question, we are told, walked into the police station cold sober and asked that a vagrancy charge be laid.

a vagrancy charge be mu.

This story has an ugly, and familiar, ring.

Requests like this were commonplace in the
thirries, but were not always granted. It was
easier to chase the cold "vagrant" out of town.

easier to chase the cond vagrant out of variant.

There is something wrong about any unlarge employment insurance and welfare system which coloute makes it more profitable for some to be idle at the colour and the co than to work, yet forces others to surrender their freedom in order to keep warm during the

If any person protests that the man in question may actually prefer the security of jail to the necessity of working for a living, we can only suggest that in that case he needs psychia-tric help.

Jall is for criminals, not for the poor, the old, the impoverished or the discouraged.

# Strictly Personal

# The Body Can Perform if Mind Is Willing

By SYDNEY J. HARRIS A reader has asked me to expand on a recent paragraph in which I suggest that most "fatigue" felt by people is not physical, but emolional.

physical, but emolional.

He writes that he has tried all kinds of nostrums for "shat tired feeling," and nothing seems to help — liver pills, blood tonics, vidamins, laxitives, and a whole array of proprietary medicines. "I still get tired as soon as I go out somewhere," he aids.

Not lone are I attended a

# BULLETIN:

# Remarkable ingredient that would boil in your refrigerator helps Super Shell give your car quick starts and top performance in coldest Belleville weather

The 9 ingredients in Super Shell are adjusted every season to give top performance in any weather.

In Winter, Super Shell is primed with extra butane an ingredient so eager to get going that it would boil and vaporize before your eyes if you could remove it from Super Shell's formula. Butane would even boil in your refrigerator.

In Super Shell, butane gives you faster firing on cold days. Takes a big strain off your battery. And an even bigger one off your patience.

I FYOU HAVE any trouble starting your car in cold weather, your gasoline could be the culprit. It may not be vaporizing as promptly as it should. And until it starts to vapor-

ize and mix with air in your carburetor, gasoline has a hard time "firing" your engine.

### What Shell scientists do to give you quick starts

Shell scientists attack the starting prob-lem by giving Super Shell an extra dose of butane as soon as the cold weather sets in. Butane is highly volatile—which means that it changes easily —which means that it changes easily from a liquid to a vapour. The change is the same sort of thing that happens

is the same sort of thing that happens when water boils and turns into steam. But butne countly boils and uporities at 31.17—fourthant temperature issued your trifferester. Shell store it under present is keep if them operating by juteff. You can imagine what this remarkable ingredient does in Super Shell. Increases its voluntiley dramatically, a beginning that the state of the s

### Butane has bot-weather benefits, too-an odd little paradox

Now that you know about butane, why not take a couple of extra minutes and learn about the eight other ingredients in today's Super Shell? It's essential reading if you want to know the secret of top performance.

### Ingredient #2 is TCP for power, mileage and longer plug-life

Today's Super Shell contains an even better version of this famous additive.

Test proves how TCP neut deposits. The electrically heate deposits. The electrically heated piston, above, has been sprinkled with two kinds of engine deposit. The glowing deposit, at left, had not been neutralized with TCP. The deposit on the right had. With TCP at action, there is no It was originally developed for use in

TCP\* additive can give your car sy to 13 per cent more power; 17 extra miles per tankful; and make your plugs last twice as long.

Aviation-grade TCP does this by neutralizing the harmful effects of engine deposits. It stops them from glowing when hot—a major cause of power loss.

It also stops them from diverting your

### Ingredient #3 is "cat-cracked" gasoline for power with a purr

This is petroleum that has actually cracked under 1000-degree heat and catalytic action. Its heavier molecules have been shattered into livelier lighter

The result is a high-octane ingredient that makes your engine purr with power the moment you put your

NOTE: "Cat-cracking" refers to the use of a catalyst—2 substance that has the mysterious ability to alter molecules without changing itself. Ingredient #4 is heavy

### alkanes—for both power and economy at all speeds

Shell scientists will tell you that gaso-

Shell scientists will tell you that gasoline cin be too sensitive.

That's their unflatering description of a "touchy" gasoline that performs well enough when you're driving slowly, but causes mock and loss of power when you speed up.

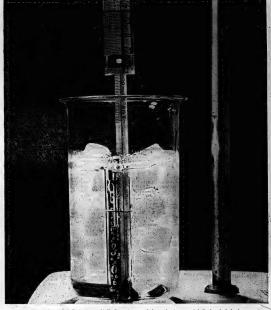

So they put heavy alkanes into Super Shell. This impredient is prized for its insensitivity. Hexper occurre tarings high intensitivity of the prized for the continuous price of t

### Ingredient #5 is anti-knock mix for extra resistance to knocks

octane ingredients are enough to give you knock-free performance. But LOPED BY SHILL BESSEARCH, PAYENTED 1011.

Pentanes are made by tearing gasoline apart, much as you split logs into kindling to start a log fire.

In this case, the "logs" are petroleum's heavier hydrocarbons. A special process transforms their molecules from You might suppose that two high-

Butane boiling on the rocks. Shell scientists use this "boiling-poir test" to check the volatility of butane, the quick-start ingredient is Super Shell. They pour butane at sub-zero temperatures into that ice

packed test tube. As soon as it boils, they check the thermometer Here you see butane boiling and vaporizing at 31.1°P. This eagerpset to get going works wonders on cold mornings.

Shell's scientists have ears like musicians.

They insist on adding a special anti-knock-mix. A mpc, so effective, one teaspoon per gallon can boost anti-knock rating by styren points. This mix has the tricky job of regu lating combustion so that Super Shell gives each piston a firm, even push— rather than a sharp blow which would

### Ingredient #6 is an "anti-icer" to stop stalls due to carburetor

Super Shell's formula is adjusted up to oupersneil's formula is adjusted up to eight times a year for your area to beat the weather. Whenever the tempera-ture is likely to be less than forty-five degrees, an anti-ice ingredient is added. Why add anti-icer at forty-five de-

with and anti-teer at forty-tive de-grees? Because, even then, frost can form in your carburetor just as it does in your refrigerator. It can choke your engine dead.

## Ingredient #7 is a mixture of pentanes for fast warm-ups on cold days

u-burning "logs" to quick-firing NET RESULT: Fast warm-up and top

performance in a hurry.

### Ingredient #8 is a special gun preventive to keep the fuel system clean

Even the purest gasoline can form gum when stored. This can clog carburetors, Even the purest gasoline can form gum when stored. This can clog carburetors, fuel lines, and pumps. But with Super Shell, you needn't worry. A special gum-preventive does the trick. It acts like a policeman controlling

a mob. Keeps an eye on unstable ele-ments—stops them from elotting and forming gum. Super Shell makes gummed-up engines a thing of the past.

### Ingredient #9 is Platformate for extra energy, more mileage

It takes one million dollars' worth of-platinum catalyst for Shell to produce Platformate. But fortunately for you and for us, this precious stuff car

and for us, this precious stun can be used over and over again.

The platinum process, which gives Platformate its odd name, re-forms petroleum into super-energy compo-nents—such as benzene, toluene, and

These three alone release 7 per cent more useful energy per gallon than the best 100-octane aviation gasoline.

But make no mistake. This is not con-tained energy. Far from it. The super-energy of Platformate is harnessed by the eight other ingredients in Super Shell, where it behaves so well you But make no mistake, This is not unscarcely know it's there. That is until you note your extra mileage. After that, there is no doubt.

### Test Super Shell for yourself

Try Super Shell next time you fill up. You'll soon feel and hear a difference in the way your engine runs. That difference is top perform

# Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Les Taylor, sports editor of the Michener Reco-took than out from a frontal assault on a large oin of freesa. Algoratimized generated in his cherries of the control of the free and the control of the "Declaration of the product of the con-position of the control of the control of the profession of the control of the control of the wars next year."

A voluptuous Mariiyn Munre type blonde was coaxing soft strains of Strains from her violin in the background. It was the most beautiful instrument I

"Xeu'd be surprised how many Kitchener hoe-fans would like to see the senior brand back in," he said. Bobby Bauer, one of the non-caloric chers at the table, nodded in agreement. Add this to other rumblings stirring the Outariolor hinterisands and you could come to the conclusion at the senior brand, after all, is not dead, only dormand places that dropped out of the picture last year.

A well known Whitby hockey official told me that a movement is already afool to resurrect a corpse that is not dead, only sleeping." A lot of the old Dunloper grant flaure they have a lot of hockey left and would like to get back into hockey action next year.

"I have been talking to a number of the Dunlops a some of the former officials," Lorne said, "and y are definitely interested in returning to senior they next year,"

Since Hap Emms took the junior "A" Flyers to Higgsen his, Barrie has been without upper brackets hockey, acy intended entering last year but did not have enough no to make the proper arrangements.

"If such things come to pass," Lorne said, "Wel-land might owier the feld to make up a five team masters semicer section. This would give us Galt, Whitby, Kitchener, Barrie and Welland."

He heaved a big sigh. "I would like to see the heme town back in there again. With Belle-e in there, it would be an ideal set-up."

There was a dead silence while the newsboy ratuled singing the presses of ham and choose sandwiches, id drinks and "milk." Up to that point I had always ured milk was a drink.

It won't be Lorne Cook's fault if these rumer-ee stories do not into into reality. When he event-ily retires from active work in hockey the OHA wild strike a special medial and present him with a ost Outstandings Workhorse" trophy.

He has been one of the main cogs in the OHA or-izational machinery in Eastern Ontario. And a lot of success can be laid directly at his door.

Siace joining the OHA executive in the 1947-45 season, Mr. Cook has missed but one meeting; that when he was given the wyong time. It was in "made up" for one executive session when he was in Ceccholovyskis by representing the OHA at a special season of the International Ide Meekey Federation.

TO THE VICTOR . . . . — Nick Stefan presents the handsome Labatt Trophy to Doug MacDonald of the Quinte Marksmen Handgun champions.

# How Dr. Nason Helped a Boy's Future

Leslie J. Nason Ph Wd THE AUTHOR

The boy was overweight and unpleasant. He lacked confidence; he was falling in school, No-body liked him except his mother.

"If he could just learn to make better grades", she said, "maybe that would help."

She had failed to help him improve those grades. So had the school. The boy was failing. Then someone told the mother about a man who might perform the miracle.

As he had so many times before, Dr. Leslie J. Nason, educator and specialist in study habits, took the case.

By teaching the boy how to study he performed the miracle of lifting him from fallure to scholastic success—as well as success with other chil-

"He wasn't stupid," Dr. Nason notes. "He just never had been taught how to learn."

In simple, nontechnical language, Dr. Nason now reveals some effective, neglected techniques of the art of learning. Don't miss the articles on "You CAN Get Better Grades", which Dr. Nason has written with Harry Karns. The series starts in this paper today.

This series starts Today in this paper on page 5

# Natives Restless, U.N. Feckless

Recently Secretary-General Dag Hammansjoid of the United Nations has reported that the
UN police action in the Congo may have to
be withdrawn because of the lack of troops.
This comment followed the definite decisions of
three participating govignments to withdraw
their military support for the UN police force.
After looking back on the évinits and proceedings in the Congo wy cannot help but wonder if this might be for the best. Of what
the state of the state of troops the state of the conge to the state of the conge to the state of the conge to the participation of the conge to the participation.

The main reason for the UN's failure is
that this action was not backed up with the
courage of its convictions. Personnel sent to
the Congo to shelp stave of nancety and chase
and to establish some semblance of order were
sansulted by those they had been sent to better.

courage of its convictions. Personnel sent to the Congo to help stave off anarchy and chaos and to establish some semblance of order were assaulted by those they had been sent to help. Others were murdered and fell victim to canni-balism. It has become evident that from the start there has not been a single real leader amongst the many tribes in the Congo. There is no man who can override the severe sectionalism of a sociologically divided country and command unity.

The UN, however, has maintained the attitude that somehow or other everything will turn out all right despite the primitive instincts of the multitudes of marauding, murdering milltary bands prowling about the Congo with Strictly Personal divided allegiances.

In the UN's actions we can see the reflection of the confused thinking, so predominate in some levels of our modern society, that discipline is a bad thing for a growing child. Despite what some theorists might feel on the infinition or cultivation of various inhibitions. To Praise children through parental control or discipline it is only through the latter that any semblance of a stable and mature character is developed. or a same and mature character is developed. No matter how progressive it may seem to be, allowing a child to develop to the full limit of his irresponsible desires is trying on his parents and of no practical use to the child in later years. In fact it can actually be detrimental for a person to be undisciplined, not only for others but for himself.

The Congo offers a parallel situation. The Congo offers a paramet structure. In the State of the Congo offers a parameter structure of the State of the Congo of for demanding, irresponsible political groups who how lustily whenever their demands are not

The UN, and the Congo, will never get anywhere until the local troops are relieved of their waret until the local troops are relieved of their weapons and their authority and this would take an army. They have shown themselves to be incapable of assuming the responsibility or providing the maturity that such a privilege requires. Once some semblance of civil order has been established, then the work of educating and building the people of the Congo's tribes towards building the people of the Congo's tribes towards the responsibilities of self-government and co-operation can begin.

It is a hard uphill climb to do this. The UN should have got started up this hill some time back rather than mill about at the bottom. We cannot blame the member nations for re-fusing to continue to support such an ineffectual operation.

Added to this situation is the alleged mis representation of facts concerning events and happenings by the UN information officers. The reason for this is certainly not clear and has, in the opinion of journalists in the Congo, contributed to much of the confusion which exists

Whatever the reason, the UN seems to have erred to the detriment of both itself and the people it was supposed to help. It should have had a strong "no-nonesnes" attitude from the very start. It knew the natives were restless and needed some sense of constructive direction. needed some sense of constructive dis This the UN had better provide before it is too late, or perhaps it is.

# DAYLIGHTING

It's not so much moonlighting we've got to worry about, said the gloomy visitor to the to forfice, it's daylighting. When asked what that was he said that it was the practice of holding down a job without the alightest intention of cioling any work. (Feterborough Examiner.)

RARE, MEDIUM, WELL-DONE · B GEO. H. CARVER, Sports Editor

Secring III-luck and the gremlins, which always stand of to pounce on the unsuspecting back of a star in the ng, young Bruce Kidd could be the toast of Canada a 1964 Olympics in Tokyo.

The slightly ski-nosed, crew-cut seventeen-year-ol-whe, skands 5-8 and weighs 150 became an evernigi track sensation two weeks ago when he ran the indo-two miles in 8:63.2 to entired the cream of the America

Toronto high school stu-dent told us at the Celebrities' Dinner. He had gone to Boston to try en-

Bruce finished second in the 5,000 metre Olympic last summer, a sensitional performance for a 16-old. But his age was "agin him" and veteran Kyle, who finished well behind Kidd, got the gios nod.

But he wou't he ion young for the track events in Tokyn in 1864. That is the target this phenom-enal youngster has set his sights on. True, the 1983 BE games and the 1983 Pun-American games are coming up, hes Kidd hopes he'll wear the Maple Lonf in all of them.

And he is practically sure he is going to sky in Canada. Asked if he intended going to an American college, he said, "No, I can hencetly say I don't think so. I've got plenty of offers from American colleges (sthictle scholarships) but I think I'll be saying here."

He feels he can get better coaching from Fred Foot et Varsky than anywhere in the United States. He says the Agnerican coaches had failed to produce any great distance (two miles plus) runners in the past ten

Academically Bruce is good. His grades average 30 per cent at Malvern Collegiate. He's taking no less than 10 subjects and hoyes to cross the Grade 13 tape a winner in a single year.

But while plugging away at ten subjects young Mas-Kidd finds time to, do two hours of training every day 1 Sunday. Besides he manages to average eight hours seep a night.

He is a versatile athlete. While running is his prime love he is a baseball ostcher, has played half-back on the Malvern football team and not bad at all as a bocker forward.

He fully realizes what faces him. He knows that the track to success is filled with bumps, buffets and readblegks. He knows he has to be ready at all times. "If you train hard enough," he says, "you're bound to be at your best for any given race. Then if you lose it's just a matter of not being good enough. There aren't any excuses."

He proved this last Saturday when he Saahed to a new Canadian two-mile record in Winniper with a time of 8:58.2%. The former mark was 8:04.0 set by Don McCwan.

And just for good measure he shaved a second off Canadian indoor mile, running the distance in

He has a big map of Japan hanging on a wall in his bedresom. On one side he has the days marked down. As each one passes, he crosses it off. And as he marks it he whispers, "It won't be long now."

He'll be "Kidding" but not kidding when he face the world's best at the 1964 Olympics. And if he brings home that gold medal-well-sit couldn't hap-pen to a better country or a sicer youngster.
